*Northern Renaissance Art* Susie Nash, 2008-11-27 This book offers a wide ranging introduction to the way that art was made valued and viewed in northern Europe in the age of the Renaissance from the late fourteenth to the early years of the sixteenth century Drawing on a rich range of sources from inventories and guild regulations to poetry and chronicles it

examines everything from panel paintings to carved altarpieces While many little known works are foregrounded Susie Nash also presents new ways of viewing and understanding the more familiar such as the paintings of Jan van Eyck Rogier van der Weyden and Hans Memling by considering the social and economic context of their creation and reception Throughout Nash challenges the perception that Italy was the European leader in artistic innovation at this time demonstrating forcefully that Northern art and particularly that of the Southern Netherlands dominated visual culture throughout Europe in this crucial period

*Renaissance Art* Tom Nichols, 2012-12-01 The fifteenth century saw the evolution of a distinct and powerfully influential European artistic culture But what does the familiar phrase Renaissance Art actually refer to Through engaging discussion of timeless works by artists such as Jan van Eyck Leonardo da Vinci and Michelangelo and supported by illustrations including colour plates Tom Nichols offers a masterpiece of his own as he explores the truly original and diverse character of the art of the Renaissance

Late Byzantium Reconsidered Andrea Mattiello, Maria Alessia Rossi, 2019-03-04 Late Byzantium Reconsidered offers a unique collection of essays analysing the artistic achievements of Mediterranean centres linked to the Byzantine Empire between 1261 when the Palaiologan dynasty re-conquered Constantinople and the decades after 1453 when the Ottomans took the city marking the end of the Empire These centuries were characterised by the rising of socio-political elites in regions such as Crete Italy Laconia Serbia and Trebizond that while sharing cultural and artistic values influenced by the Byzantine Empire were also developing innovative and original visual and cultural standards The comparative and interdisciplinary framework offered by this volume aims to challenge established ideas concerning the late Byzantine period such as decline renewal and innovation By examining specific case studies of cultural production from within and outside Byzantium the chapters in this volume highlight the intrinsic innovative nature of the socio-cultural identities active in the late medieval and early modern Mediterranean vis-à-vis the rhetorical assumption of the cultural contraction of the Byzantine Empire

Byzantine Art and Renaissance Europe Angeliki Lymberopoulou, Rembrandt Duits, 2016-12-05 Byzantine Art and Renaissance Europe discusses the cultural and artistic interaction between the Byzantine east and western Europe from the sack of Constantinople by the Fourth Crusade in 1204 to the flourishing of post-Byzantine artistic workshops on Venetian Crete during the fifteenth and sixteenth centuries and the formation of icon collections in Renaissance Italy The contributors examine the routes by which artistic interaction may have taken place and explore the reception of Byzantine art in western Europe analysing why artists and patrons were interested in ideas from the other side of the cultural and religious divide In the first chapter Lyn Rodley outlines the development of Byzantine art in the Palaiologan era and its relations with western culture Hans Bloemsa then re-assesses the influence of Byzantine art on early Italian painting from the point of view of changing demands regarding religious images in Italy In the first of two chapters on Venetian Crete Angeliki Lymberopoulou evaluates the impact of the Venetian presence on the production of fresco decorations in regional Byzantine churches on the island The next chapter by Diana Newall continues the exploration

of Cretan art manufactured under the Venetians shifting the focus to the bi cultural society of the Cretan capital Candia and the rise of the post Byzantine icon Kim Woods then addresses the reception of Byzantine icons in western Europe in the late Middle Ages and their role as devotional objects in the Roman Catholic Church Finally Rembrandt Duits examines the status of Byzantine icons as collectors items in early Renaissance Italy The inventories of the Medici family and other collectors reveal an appreciation for icons among Italian patrons which suggests that received notions of Renaissance tastes may be in need of revision The book thus offers new perspectives and insights and re positions late and post Byzantine art in a broader European cultural context

**Locating Renaissance Art** Carol M. Richardson, 2007-01-01 Renaissance art history is traditionally identified with Italian centers of production and Florence in particular Instead this book explores the dynamic interchange between European artistic centers and artists and the trade in works of art It also considers the impact of differing locations on art and artists and some of the economic political and cultural factors crucial to the emergence of an artistic center During c 1420 1520 no city or court could succeed in isolation and so artists operated within a network of interests and local and international identities The case studies presented in this book portray the Renaissance as an exciting international phenomenon with cities and courts inextricably bound together in a web of economic and political interests

*The Cambridge Companion to the Italian Renaissance* Michael Wyatt, 2014-06-26 The Renaissance in Italy continues to exercise a powerful hold on the popular imagination and on scholarly enquiry This Companion presents a lively comprehensive interdisciplinary and current approach

to the period that extends in Italy from the turn of the fourteenth century through the latter decades of the sixteenth. Addressed to students, scholars and non specialists it introduces the richly varied materials and phenomena as well as the different methodologies through which the Renaissance is studied today both in the English speaking world and in Italy. The chapters are organized around axes of humanism, historiography and cultural production and cover a wide variety of areas including literature, science, music, religion, technology, artistic production and economics. The diffusion of the Renaissance throughout Italian territories is emphasized. Overall the Companion provides an essential overview of a period that witnessed both a significant revalidation of the classical past and the development of new vernacular and increasingly secular values.

[An Introduction to the Making of Western Art](#) Susan L. Green, 2024-03-29 This book is the first introduction to Western art that not only considers how choice of materials can impact form but also how objects in different media can alter in appearance over time and the role of conservators in the preservation of our cultural heritage. The first four chapters cover wall and easel paintings, sculpture, drawings and prints from the late Middle Ages to the present day. They examine with numerous examples how these works have been produced, how they might have been transformed and how efforts regarding their preservation can sometimes be misleading or result in controversy. The final two chapters look at how photography, new techniques and modern materials prompted innovative ways of creating art in the twentieth century and how the rapid expansion of technology in the twenty first century has led to a revolution in how artworks are constructed and seen, generating specific challenges for collectors, curators and conservators alike. This book is primarily directed at undergraduates interested in art history, museum studies and conservation but will also be of interest to a more general non specialist audience.

**Reclaiming Rome: Cardinals in the Fifteenth Century** Carol Mary Richardson, 2009-03-25 The fifteenth century was a critical juncture for the College of Cardinals. They were accused of prolonging the exile in Avignon and causing the schism. At the councils at the beginning of the period their very existence was questioned. They rebuilt their relationship with the popes by playing a fundamental part in reclaiming Rome when the papacy returned to its city in 1420. Because their careers were usually much longer than that of an individual pope, the cardinals combined to form a much more effective force for restoring Rome. In this book, shifting focus from the popes to the cardinals, sheds new light on a relatively unknown period for Renaissance art history and the history of Rome. Dr Carol M Richardson has been awarded the Philip Leverhulme Prize 2008 in the field of History of Arts.

*Henricus Martellus's World Map at Yale (c. 1491)* Chet Van Duzer, 2018-08-03 This book presents groundbreaking new research on a fifteenth century world map by Henricus Martellus c. 1491 now at Yale. The importance of the map had long been suspected but it was essentially unstudiable because the texts on it had faded to illegibility. Multispectral imaging of the map performed with NEH support in 2014 rendered its texts legible for the first time, leading to renewed study of the map by the author. This volume provides transcriptions, translations and commentary on the Latin texts on the map, particularly their sources as well as the place names in several regions. This leads

to a demonstration of a very close relationship between the Martellus map and Martin Waldseemüller's famous map of 1507. One of the most exciting discoveries on the map is in the hinterlands of southern Africa. The information there comes from African sources; the map is thus a unique and supremely important document regarding African cartography in the fifteenth century. This book is essential reading for digital humanitarians and historians of cartography. Pious Memories Douglas Brine, 2015-03-10. Wall-mounted memorials or epitaphs enjoyed great popularity across the Burgundian Netherlands. Usually installed in churches above graves, they combine images with inscriptions and take the form of sculpted reliefs, brass plaques, or panel paintings. They preserved the memory of the dead and reminded the living to pray for their souls. On occasions, renowned artists like Jan van Eyck and Rogier van der Weyden were closely involved in memorials' creation. In Pious Memories, Douglas Brine examines the wall-mounted memorial as a distinct category of funerary monument and shows it to be a significant if overlooked aspect of fifteenth-century Netherlandish art. The patronage functions and meanings of these objects are considered in the context of contemporary commemorative practices and the culture of memoria. For sample pages, click on Google Books button. Brine received the 2015 Arthur Kingsley Porter Prize for an earlier version of Chapter 5 of Pious Memories; his article 'Jan van Eyck, Canon Joris van der Paele and the Art of Commemoration' published in the September 2014 issue of The Art Bulletin. The Intellectual Education of the Italian Renaissance Artist Angela Dressen, 2021-09-02. Scholars have traditionally viewed the Italian Renaissance artist as a gifted but poorly educated craftsman whose complex and demanding works were created with the assistance of a more educated advisor. These assumptions are in part based on research that has focused primarily on the artist's social rank and workshop training. In this volume, Angela Dressen explores the range of educational opportunities that were available to the Italian Renaissance artist. Considering artistic formation within the history of education, Dressen focuses on the training of highly skilled, average artists, revealing a general level of learning that was much more substantial than has been assumed. She emphasizes the role of mediators who had a particular interest in augmenting artists' knowledge and highlights how artists used Latin and vernacular texts to gain additional knowledge that they avidly sought. Dressen's volume brings new insights into a topic at the intersection of early modern intellectual, educational, and art history. **House of Secrets** Allison Levy, 2019-01-24. A look into the tantalising secrets of Florence's Palazzo Rucellai. When Italian Renaissance professor Allison Levy takes up residency in the palazzo of her dreams, the Palazzo Rucellai in Florence, she finds herself consumed by the space and swept into the vortex of its history. She spends every waking moment in dusty Florentine libraries exploring the palazzo's myriad rooms, seeking to uncover its secrets. As she unearths the stories of those who have lived behind its celebrated facade, she discovers that it has been witness to weddings, suicides, orgies, the dissection of a monster, and even a murder. Entwining Levy's own experiences with the ghosts of the Palazzo Rucellai's past, House of Secrets paints a scintillating portrait of a family, a palace, and one of the most iconic cities in the world. The Endless Periphery Stephen J. Campbell, 2019-11-26. While the

masterpieces of the Italian Renaissance are usually associated with Italy's historical seats of power some of the era's most characteristic works are to be found in places other than Florence Rome and Venice They are the product of the diversity of regions and cultures that makes up the country In *Endless Periphery* Stephen J Campbell examines a range of iconic works in order to unlock a rich series of local references in Renaissance art that include regional rulers patron saints and miracles demonstrating for example that the works of Titian spoke to beholders differently in Naples Brescia or Milan than in his native Venice More than a series of regional microhistories *Endless Periphery* tracks the geographic mobility of Italian Renaissance art and artists revealing a series of exchanges between artists and their patrons as well as the power dynamics that fueled these exchanges A counter history of one of the greatest epochs of art production this richly illustrated book will bring new insight to our understanding of classic works of Italian art
