

One third/two thirds split rear seat gives useful versatility

ECONOMY

A large three-box saloon car powered by a relatively small engine usually spells disaster as far as fuel consumption figures are concerned. In the case of the Renault 21 GTS, this is not the case.

The 1721cc engine is powering a car weighing in at 2597lb (as tested) which equates to a power-to-weight ratio of 77.6bhp/ton laden. Combined with the 0.31 Cd factor, Renault has managed to achieve an efficient machine which returned an overall fuel consumption figure of 29.7mpg during its 921 miles with us. Taking the performance into account, this a figure to make some manufacturers weep in despair.

The spread of interim fuel consumption figures, however, ranged from 20.6mpg for the test session to 32.6mpg after a sustained period of light-footed driving on the motorway. This spread is explained easily by the fact that during the test session the second choke of the single Solex carburettor was in operation for most of the time; cruising on the motorway at 70mph it is not.

An average driver is more likely to achieve close to 32mpg in the course of everyday motoring which, combined with the large, 14.5-gallon fuel tank, will give a possible range of around 460 miles. This endows the Renault 21 with an impressive cruising ability, not normally associated with a large car powered by a comparatively small engine.

The lockable fuel filler cap is located behind a spring-loaded flap in the offside rear three-quarter panel and brimming does not present a problem, though it is a longer than normal procedure.

REFINEMENT

Considering its place in the market, the car's general level of creature comforts and overall refinement is very high — not dissimilar to those of the bigger Renault 25, and certainly ahead of the 21's close rivals.

The GTS feels especially at home at high motorway speeds, as if it were specifically tailored for this sort of work. Our impression is that the 21 would make a fine 'pep-mobile'.

At 70mph, for instance, the driver can hold a conversation with the

rear-seat passengers without raising his voice. Wind noise is very well controlled, road noise is suitably subdued unless travelling on coarse tarmac or concrete surfaces, and the engine note is kept to a muted hum unless wide throttle openings are called for, when it becomes noticeably busy.

It was while testing at more than 100mph that we discovered an unusual whistling sound through the air vents, though this was somewhat sporadic and disappeared at the legal motorway speed limit. The heater fan is unobtrusive on its first three settings, and not particularly noisy on the most powerful.

'Bump-thump' is well controlled but still in evidence, though soaked up to some extent by the softish suspension, which is biased more towards comfort than outright handling, even though body roll is well controlled.

ROAD BEHAVIOUR

From most angles the Renault 21 resembles a scaled-down 25, and its road manners are very similar to the big saloon too.

Steering is via a rack and pinion system, without, in this instance, power assistance, although the car does not suffer in terms of steering effort required. There are four full turns of the 15mm diameter steering wheel from lock to lock and there is a turning circle of 34ft 3ins on right lock, 34ft 2.5ins on the left.

There is sufficient feel in the steering for the driver to instinctively know in which direction the wheels are pointing. Despite 16mph crosswinds encountered during testing, it was noticeable how stable the 21 was.

This reassuring behaviour is also apparent in overall handling. Up to moderate speed there is a slight build-up of understeer, with higher speed this attitude changes to a more neutral, balanced state and remains this way right up to the limit of adhesion. If the throttle is shut abruptly mid-corner it is possible to induce a mild tail-slide, but one that is easily corrected with opposite lock and power.

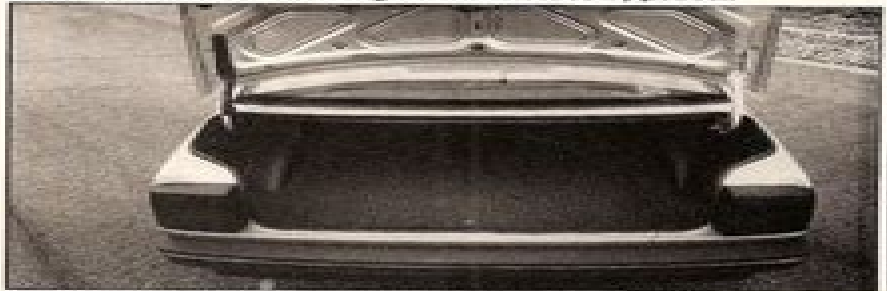

Front suspension is by MacPherson struts, coil springs, and with additional control provided by a 25mm anti-roll bar. The rear is by

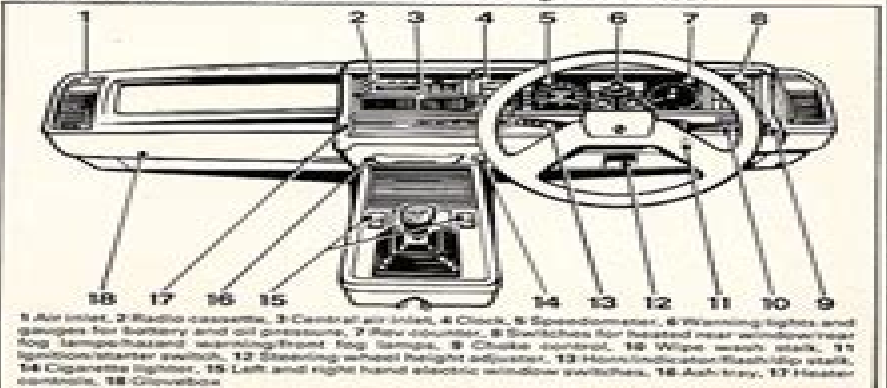

Generous proportions means plenty of legroom, front and rear

Oddment accommodation is good and seats softly padded

Load compartment is generous, both in length and width
