Robin Cook S Made Into Movies:

50 MGM Films That Transformed Hollywood Steven Bingen, 2022-11-01 Movies don't exist in a vacuum. Each MGM movie is a tiny piece of a large, colorful, although often black and white quilt with threads tying it into all of the rest of that studio's product going forward, yes, but also backward and horizontally and three dimensionally across its entire landscape. Not necessarily a best of compilation, this book discusses the films that, for one reason or another, and not all of them good, ones changed the trajectory of MGM and the film industry in general, from the revolutionary use of Cinerama in 1962's *How the West Was Won* to Director Alfred Hitchcock's near extortion of the profits from the 1959 hit thriller *North by Northwest*. And there are the studio's on-screen self shoutouts to its own past or stars in films like *Party Girl* 1958, the *That's Entertainment* series, *Garbo Talks* 1984, *Rain Man* 1955, and *De Lovely* 2004, or the studio's acquisition of other successful franchises such as *James Bond*. But fear not, what we consider MGM's classic films all get their due here, often with a touch of irony or fascinating anecdote. *Singin' in the Rain* 1952, for example, was in its day neither a financial blockbuster nor critically acclaimed, but rather an excuse for the studio to reuse some old songs it already owned. *The Wizard of Oz* 1939 cost almost as much to make as *Gone With the Wind* also 1939 and took ten years to recoup its costs. But still, the MGM mystique endures. Like the popular Netflix series *The Movies that Made Us*, this is a fascinating look behind the scenes of the greatest and at times notorious films ever made. *Movies Made for Television, 1964-2004: 1990-1999* Alvin H. Marill, 2005

Armageddon Films FAQ Dale Sherman, 2013-10-01 FAQ Mankind has been predicting its own demise through various methods, from fables and religious scriptures to hard-core scientific studies since the dawn of time. And if there is one thing Hollywood knows how to exploit, it is the fears of Things to Come. Movies about the end of the world have been around since the early days of cinema, and *Armageddon Film FAQ* is a look into the various methods we have destroyed ourselves over the years: zombies, mad computers, uptight aliens, plunging objects from space, crazed animals, Satan, God, Contagions, the ever popular atomic bomb, sometimes even a combination of these in the same movie. *Armageddon Films FAQ* goes from the silent days of filmmaking to the most recent, literally earth-shattering epics from cinema to television and even the novels from comedies to dramas from supernatural to scientific. It also explores other aspects of the genre, such as iconic but unfilmable apocalyptic novels, postnuclear car racing flicks, domestic dramas disguised as end-of-the-world actioners, and more, from the most depressing to the happiest Armageddons ever.

The Elephants in My Backyard Rajiv Surendra, 2016-11-08 Rajiv Surendra, the rapping mathlete from *Mean Girls*, read *Life of Pi* and discovered it was being adapted into a major motion picture and embarked on a ten-year journey to land the role of a lifetime. But this is not a journey of goals and victories; this is a story of obsessively pursuing a dream, overcoming failure, and finding meaning in life. *The Elephants in My Backyard* is a profound and inspiring story of self-discovery in the face of failure, poignant, funny, colourful, and absolutely unforgettable. **A**

Epidemic Cinema Julia Echeverría, 2023-12-08 This book examines the recent trend in global cinema to feature infectious disease As the global crisis of the COVID 19 pandemic materialised the anxieties and discourses of world risk that had long been portrayed in popular media the book provides a novel definition of the epidemic film genre and offers a systematic look into the narrative and

stylistic conventions that characterise it Epidemic Cinema traces the evolution of the genre from its early cinematic origins to establish the founding principles of a genre standing at the crossroads between science fiction and horror It draws on close textual analysis to show how the pandemic reified one of the central predicaments of epidemic narratives the constant tension existing between free floating phenomena and the impulse to control and resist such phenomena ultimately epitomised by the trope of the border Showing how infectious diseases offer a rich allegorical frame which cinema uses to articulate timely anxieties of growingly invisible and deterritorialised risks the author presents the prevalence of contagion in popular culture as a symptom of this growingly viral and virus ridden context both in its most literal and metaphorical sense This insightful study will interest students and scholars of film studies global cinema science fiction horror popular culture and genre theory
