Meyer, 2014-11-27 A well researched and thorough book examining what the author finds to be a unique facet of film music of the late 1940s and early 1950s Soundtrax Lavish musical soundtracks contributed a special grandeur to the new widescreen stereophonic sound movie experience of postwar biblical epics such as *Samson and Delilah* *Ben Hur* and *Quo Vadis* In *Epic Sound* Stephen C Meyer shows how music was utilized for various effects sometimes serving as a vehicle for narrative plot and at times complicating biblical and cinematic interpretation In this way the soundscapes of these films reflected the ideological and aesthetic tensions within the genre and more generally within postwar American society By examining key biblical films Meyer adeptly engages musicology with film studies to explore cinematic interpretations of the Bible during the 1940s through the 1960s A major contribution to the field of film music studies and ought to be widely read by musicologists with an interest in film Really it ought to be read by film scholars as well although the depth of Meyer s engagement with the music is felt on almost every page this is also a powerfully sustained exploration of the biblical epic as a film genre American Music Meyer s clear and articulate study promises to be a welcome addition to the reading list of anyone interested not just in film but in mid century music history *Journal of the Society for American Music* An ambitious and fascinating book James Buhler The University of Texas at Austin **The Encyclopedia of Film Composers** Thomas S. will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores Sonatas, Screams, and Silence Alexis Luko, 2015-08-11 Sonatas Screams and Silence Music and Sound in the Films of Ingmar Bergman is the first musical examination of Bergman's style as an auteur filmmaker. It provides a comprehensive examination of all three aspects: music, sound effects, and voice of Bergman's signature soundtrack style. Through examinations of Bergman's biographical links to music, the role of music, sound effects, silence, and voice, and Bergman's working methods with sound technicians, mixers, and editors, this book argues that Bergman's soundtracks are as superbly developed as his psychological narratives and breathtaking cinematography. Interdisciplinary in nature, this book bridges the fields of music, sound, and film. Saying It With Songs Katherine Spring, 2013-11 Hollywood's conversion from silent to synchronized sound film production not only instigated the convergence of the film and music industries but also gave rise to an extraordinary period of songs in American cinema. Saying It With Songs considers how the increasing interdependence of Hollywood studios and Tin Pan Alley music publishing firms influenced the commercial and narrative functions of popular songs. While most scholarship on film music of the period focuses on adaptations of Broadway musicals, this book examines the functions of songs in a variety of non-musical genres, including melodramas, romantic comedies, Westerns, prison dramas, and action-adventure films, and shows how filmmakers tested and refined their approach to songs in order to reconcile the spectacle of song performance, the classical norms of storytelling, and the conventions of background orchestral scoring from the period of silent cinema. Written for film and music scholars alike, as well as for general readers, Saying It With Songs illuminates the origins of the popular song score aesthetic of American cinema. **100 Greatest Film Scores** Matt Lawson, Laurence MacDonald, 2018-09-15 The background music on a film can make or break the audience experience. Imagine the shower scene in *Psycho* without the shrieking violins or *Jaws* without the ominous notes that portend the shark's attack. Musical accompaniment helps create atmosphere for the viewer, from subtle undertones to compositions that heighten the drama. In *100 Greatest Film Scores*, authors Matt Lawson and Laurence E. MacDonald consider the finest music produced for cinema since the development of motion picture sound. Each entry includes background details about the film, biographical information about the composer, a concise analysis of the score, and a summary of the score's impact both within the film and on cinematic history. Among the many films cited here are iconic scores for *The Adventures of Robin Hood*, *A Beautiful Mind*, *The Big Country*, *Chariots of Fire*, *Citizen Kane*, *Edward Scissorhands*, *Fargo*, *Gone with the Wind*, *The Great Escape*, *Jurassic Park*, *King Kong*, *Lawrence of Arabia*, *The Lion in Winter*, *North by Northwest*, *On the Waterfront*, *Out of Africa*, *The Pink Panther*, *Raiders of the Lost Ark*, *Vertigo*, and *Up Arranged*, alphabetically, and featuring a photo of each movie, the entries in this volume give the reader insight into how music functions across a wide spectrum of film genres.
