Allied Aircraft Piston Engines of World War II Graham White, 2019-05-16 Allied Aircraft Piston Engines of World War II now in its second edition coalesces multiple aspects of war driven aviation and its amazing technical accomplishments leading to the allied victory during the second world war Not by chance the air battles that took place then defined much of the outcome of one of the bloodiest conflicts in modern history Forward thinking airplane design had to be developed quickly as the war raged on and the engines that propelled them were indeed the focus of intense cutting edge engineering efforts Flying higher faster and taking the enemy down before they even noticed your presence became a matter of life or death for the allied forces Allied Aircraft Piston Engines of World War II Second Edition addresses British and American developed engines It looks at the piston engines in detail as they supported amazing wins both in the heat of the air battles and on the ground supplying and giving cover to the troops This new edition fully revised by the original author Graham White offers new images and information in addition to expanded specifications on the Rolls Royce Packard Merlin and the Pratt Whitney R 2800 engines Jay Leno a known enthusiast wrote the Foreword

The Merlin Gordon A. A. Wilson, 2018-12-15 First ever narrative history of the famous

aero engine that powered the Spitfire Hurricane Lancaster Mosquito and Mustang the aircraft that made the difference between victory and defeat at critical moments in the Second World War the Battle of Britain and the allied aerial offensive against Germany

Major Piston Aero-engines of World War II Victor F. Bingham, 1998 The frenzy of technological invention and improvement that accompanied each large scale conflict during the twentieth century has been one of the most important factors in driving the spectacular scientific advances made during the last hundred years The half way point of the century saw the horrors of the first truly global battle World War II At that time the piston aero engine was at its zenith and the world's airforces were almost entirely propeller driven It is a period that provides the most interesting study of these engines and the aircraft they powered because the rapid change to turbojets that occurred in the post war era saw the demise of the piston engine on almost all types of military aircraft and large airliners This book looks at the design and development of the most famous engines used by the combatants during this great air war Each type is studied and evaluated in historical perspective and many famous aircraft are illustrated to demonstrate installation and differing usage One Merlin makes a Spitfire two a Mosquito and four a Lancaster Engines made in America Russia and Germany could boast the same versatility and are described here in detail Book jacket
