Computer Vision and Robotics Jagdish Chand Bansal, Andries Engelbrecht, Praveen Kumar Shukla, 2022-03-14 This
book consists of a collection of the high quality research articles in the field of computer vision and robotics which are
presented in the International Conference on Computer Vision and Robotics CVR 2021 organized by BBD University Lucknow
India during 7-8 August 2021. The book discusses applications of computer vision and robotics in the fields like medical
science, defence and smart city planning. The book presents recent works from researchers, academicians, industry and policy
makers. Conservation Agriculture in Africa Saidi Mkomwa, Amir H. Kassam, 2022-01-11 Tillage agriculture has led to
widespread soil and ecosystem degradation globally and more particularly in the developing regions. This is especially so in
Africa where traditional agricultural practices have become unsustainable due to severe exploitation of natural resources
with negative impacts on the environment and food system. In addition, agricultural land use in Africa today faces major
challenges including increased costs, climate change and a need to transform to more sustainable production intensification
systems. Conservation Agriculture has emerged as a major alternative sustainable climate smart agriculture approach in
Africa and has spread to many African countries in the past decade as more development and research including in
sustainable mechanization has enabled its extension and uptake. It is key to transforming Africa's agriculture and food system
given its ability to restore soil health, biodiversity and productivity of millions of smallholder farms as well as larger scale
farms. This book is aimed at all agricultural stakeholders in the public, private and civil sectors in Africa engaged in
supporting the transformation of conventional tillage agriculture to Conservation Agriculture. The book will be of interest to
researchers, academics, students, development stakeholders, public and private sector investors and policy makers as well as
institutional libraries across the world. **Library + Information Update**, 2004 **The Times Index**, 2008 Indexes the
