## Multidisciplinary of Environment:

### 1. What do you understand by "Your Environment"?

- The Social, Cultural and Physical conditions that surround, affect and influence the survival, growth and development of people, animals and plants. It includes all factors (living and nonliving) that affect an individual organism or population at any point in the life cycle; set of circumstances surrounding a particular occurrence and all the things that surrounds us.

### 2. Why the study of environment and the interactions is important?

- Our environment plays a critical role in the survival of several living organisms. In simple words, we can define the environment as our surroundings with several biotic and abiotic components. Thus, it is clear that environmental studies are vital for spreading awareness and finding ways to protect it. Therefore, the study of environment and the interaction is important because:

- To understand the impacts of development:  
The development resulting in Urbanization; Industrial growth has a negative impact on the environment. With the rise in development globally, there is a great pace in the exploitation of resources. Humans have to understand the importance of the environment, which has provided the world to live freely.
- To understand environmental problems:  
Disasters such as climate change, acid rains, floods, and tsunamis also involve human interference. They have to understand their mistakes and find the solutions to correct them and protect the environment.
- Keep special care on ways to conserve biodiversity:  
Biodiversity serves as a backbone to maintain ecological sustainability on earth. This can be conserved by using organic foods, avoiding useless drainage of water on your property, using sustainable seafood and by Conserving our natural resources.
- To utilize natural resources efficiently:  
Natural resources such as air, water, oil, and minerals are getting depleted day by day. Lack of management skills leads to a loss of natural resources. Every individual should learn about the importance of these resources. We should also consider appropriate action plans in our day to day lives so that we can sustain our nature and its resources effortlessly.

### 4. Who coined the term "Ecology"?

- Ernst Haeckel

### 5. Explain how different spheres of Environment interact with each other.

- The environment consists of four segments. They are:

- Atmosphere -It is the blanket of gases surrounding the earth.
- Hydrosphere- It is composed of various water bodies on the earth. It includes the oceans, lakes, rivers, etc.
- Lithosphere -It contains various types of soils and rocks on earth.
- Biosphere- It is composed of all living organisms and their interactions with the environment, viz. atmosphere, lithosphere and hydrosphere. The biosphere is the earth's zone of air, soil, and water that is capable of supporting life.
