contracts and private international law with a specific focus on tourists in China. The primary aim is to analyze how private international law addresses consumer protection issues particularly for tourists and to come up with legislative proposals to improve consumer protection in China. By examining current legislative provisions, case studies and judicial practices, the book provides a comprehensive understanding of consumer protection in Chinese private international law and potential legal reforms to enhance consumers' access to justice in cross-border litigation. The increasing globalization and mobility of consumers, especially tourists, call for robust legal frameworks to protect their rights across borders. While China does endeavor to protect consumers, the current regulations in Chinese private international law remain insufficient. Consumers, including tourist consumers, still encounter major obstacles in international civil litigation. This book highlights the strengths and weaknesses of China's legal system, offering insights for potential legal reforms to enhance consumer protection there. This book is intended for academics, legal practitioners, policymakers, and students with an interest in private international law, consumer protection, and comparative law. It also offers a valuable resource for international organizations involved in consumer rights and tourism. By providing a focused analysis of tourist-related consumer contracts in China, it fills a critical gap in the existing literature.

Kyoto Revisited Jennifer S. Prough, 2022-02-28. There is a charm to Kyoto. Surrounded by lush green hills, the city feels alive with nature, history, culture, and tourists. At once ancient capital, modern city, and home to numerous cultural heritage sites, Kyoto looms large in the promotion of Japanese culture at home and abroad. In the wake of years of economic recession followed by the national promotion of cool Japan in popular culture and tourism of the twenty-first century, anthropologist Jennifer Prough sets out to examine how the city's history and culture have been mobilized to create heritage experiences for today's tourists. The heart of her book, *Kyoto Revisited*, centers on what it means to produce these for visitors: why seeing and feeling culture and tradition appeal to both domestic and international travelers and the challenges faced by a heritage tourism city. As Prough's study suggests, heritage has multiple meanings. It is created as interested parties—state and local public and private—tell different stories about the past, which are marketed in response to tourists' desire for face-to-face engagement in an experience economy. Her work examines several prominent features of Kyoto tourism, including promotion plans, heritage neighborhood renovation, the role of the seasons, and traditional aesthetics in citywide events; the appeal of sites commemorating the Meiji restoration; and the trend of walking in the heritage district in a rented kimono. Throughout, Prough brings together scholarship from Japanese studies, heritage studies, and the anthropology of tourism to highlight the interplay between the romantic desire for heritage tourism and the emphasis on personal experience. Taiken in the visitor industry today: Experience has long been an integral part of tourism, even as what counts as experience has shifted across time and place, from taking a photo to staying with locals to trying one's hand at a traditional craft. Yet these touristic desires take on a new tinge in the experience economy. *Kyoto Revisited* demonstrates not only how the past has been used to construct the city's identity and shape understandings of Japan for travelers, but also how
