Privatise The Bbc:

In Focus: The Case for Privatising the BBC Ryan Bourne, Tim Congdon, Stephen Davies, Cento Veljanovski, 2016-04-28
The BBC holds a special place in the world of broadcasting. It derives its funding from a compulsory levy on people who may not even use the service. The protection it receives is justified on the grounds that it contributes to national welfare because of its role in public service broadcasting. The authors of this book argue that the BBC's funding model is becoming untenable as technology changes. Furthermore, technology has also undermined the justification for government support for public service broadcasting. There is also major concern about bias at the BBC. However, the book concludes that bias is not confined to the BBC but is common to all media providers. The problem is not bias as such but the link between the BBC and the government together with the compulsory funding model which does not allow people to not fund content of which they disapprove. Various options for reform are presented, concluding with a proposal for full-blown privatisation. It is concluded that this is the only way to realise the potential of an organisation that should be international in scope and which under the current funding model will become marginalised by media players operating worldwide across a range of platforms. This book is essential reading for anybody involved in public policy or the economics of broadcasting. *From Public Service Broadcasting to Public Service Communications* Damian Tambini, Jamie Cowling, 2004. *Economics Made Easy* Robert Dransfield, Donald Dransfield, 2002. This new text for Economics and Business Studies students focuses on key principles, avoiding unnecessary complexity and irrelevant topics. *The Decade in Tory* Russell Jones, 2022-10-27. In 2020 the United Kingdom reached a bewildering milestone: ten successive years of Conservative rule. In that decade there were three prime ministers, each in turn described as the worst leader we ever had; ministerial resignations by the hundred; and an unrelenting stream of ineffectual, divisive, bum-slurpy ooze from 10 Downing Street. *The Decade in Tory* is an inglorious rollicking and entirely true account of ten years of demonstrable lies, relentless incompetence, epic waste, serial corruption, official police investigations, anti-democratic practices, abuse of power, dereliction of duty, and hundreds of thousands of avoidable deaths. With his signature scathing wit, Russell Jones breaks down the government's interminable failures year by year, covering everything from David Cameron's pledge to tackle inequality, which reduced UK life expectancy for the first time since 1841, through the bewildering storm of lies and betrayals that led to Brexit, devastating education cuts, serial mismanagement of the NHS, and Boris Johnson's calamitous response to the Covid-19 pandemic. It will leave you gasping and wondering: can things possibly get any worse? *The Future of the BBC* Great Britain. Parliament. House of Commons. National Heritage Committee, 1993. *Television Policies of the Labour Party 1951-2001* Des Freedman, 2004-08-02. Des Freedman explores Labour's divided response to the development of commercial television in the 1950s and assesses the impact of Wilson's governments on television in the 1960s. His key argument is that Labour has always been a vigorous but ultimately unreliable advocate of television. *Pros and Cons*, 2005-07-28. First Published in 1999. Routledge is an imprint of Taylor & Francis.

Luckham,2001-06-11 Television had until recently a social and cultural purpose The BBC and to a lesser extent ITV and Channel 4 were committed by the legal instruments establishing them to develop and maintain these purposes With the enlargement of the range of choices for viewers by digital television and the provision of access to cable and satellite TV and the Internet the role of the terrestrial television channels is being diluted The authors examine the effects of this and consider whether anything can be done to maintain the standards and quality of television at a time of unlimited competition
