business such as customers operations strategy and finances Typically however much less regard is paid to external suppliers and the risks present in dealing with them As a minimum suppliers are the sources of materials services and expert attention which enable the company to feed its business model When done well a risk aware procurement process provides the bonus of competitive advantage with the ability to capitalise on the occurrence of unexpected events This short guide explains just how to do it Each chapter explores the topic in hand outlines the risks and the remedies available and offers guidance on the principles and risk prevention
