W. Thomas, 2016-04-08 The Bible is of central importance within Caribbean life but is rarely used as an agent for social change Caribbean biblical hermeneutics focus more on the meaning of biblical texts for today and less on the context in which the texts themselves were written *Biblical Resistance Hermeneutics within a Caribbean Context* offers a biblical hermeneutic that acknowledges the importance of the socio ideological interests theological agendas and social practices that produced the biblical texts as well as the socio cultural context of the contemporary reader The book examines the social context of post independence Caribbean and outlines the difficulties of biblical interpretation within Christian communities that descend from a history of slavery Current hermeneutical practices in the Caribbean are critiqued and a biblical resistant reading offered that enables the Bible to be used as a cultural weapon of resistance **Creating Religious Childhoods in Anglo-World and British Colonial Contexts, 1800-1950** Hugh Morrison, Mary Clare Martin, 2017-01-20 Drawing on examples from British world expressions of Christianity this collection

further greater understanding of religion as a critical element of modern children's and young people's history. It builds on emerging scholarship that challenges the view that religion had a solely negative impact on nineteenth and twentieth century children or that secularization is the only lens to apply to childhood and religion. Putting forth the argument that religion was an abiding influence among British world children throughout the nineteenth and most of the twentieth centuries, this volume places religion at the center of analysis and discussion. At the same time, it positions the religious factor within a broader social and cultural framework. The essays focus on the historical contexts in which religion was formative for children in various British settings denoted as Anglo or colonial during the nineteenth and early to mid twentieth centuries. These contexts include mission fields, churches, families, Sunday schools, camps, schools, and youth movements. Together, they are treated as sites in which religion contributed to identity formation, albeit in different ways relating to such factors as gender, race, disability, and denomination. The contributors develop this subject for childhoods that were experienced largely but not exclusively outside the metropole in a diversity of geographical settings. By extending the geographic range even within the British world, it provides a more rounded perspective on children's global engagement with religion.

New Voices in Greek Orthodox Thought Trine Stauning Willert, 2016-05-13 *New Voices in Greek Orthodox Thought* brings to the light and discusses a strand in contemporary Greek public debate that is often overlooked, namely progressive religious actors of a western orientation. International and Greek media tend to focus on the extreme views and to categorise positions in the public debate along well-known dichotomies such as traditionalists vs modernisers. Demonstrating that in late modernity, parallel to rising nationalisms, there is a shift towards religious communities becoming the central axis for cultural organization and progressive thinking, the book presents Greece as a case study based on empirical field data from contemporary theology and religious education and makes a unique contribution to ongoing debates about the public role of religion in contemporary Europe.

The Sociocultural Functions of Edwardian Book Inscriptions Lauren Alex O'Hagan, 2021-03-30 This innovative text draws on theories and methodologies from the fields of multimodality, ethnography, and literacy studies to explore the sociocultural significance of book ownership and book inscriptions in Edwardian Britain. *The Sociocultural Functions of Edwardian Book Inscriptions* examines evidence gathered from historical records, archival documents, and the inscriptive practices of individuals from the Edwardian era to foreground the social, communicative, and performative functions of inscriptive practices and illustrate how material, lexical, and semiotic means were used to perform identity, contest social status, and forge relationships with others. The text adopts a unique

ethnohistorical approach to multimodality supporting the development of a typography of book inscriptions which will serve as a unique interpretive framework for analysis of literary artifacts in the context of broader sociopolitical forces This text will benefit doctoral students researchers and academics in the fields of literacy studies English language arts and research methods in education more broadly Those interested in British book history anthropology and 20th century literature will also enjoy this volume
