War and Remembrance Renée Dickason, Delphine Letort, Michel Prum, Stéphanie A.H. Bélanger, 2022-06-15 Memory while seemingly a thing of the past has much to reveal in the present With its focus on memory War and Remembrance provides new viewpoints in the field of war representation Bringing an interdisciplinary approach to discussions of the cultural memory of war the collection focuses on narratives either fictional or testimonial that challenge ideological discourses of war The acts of remembrance and of waging war are constantly evolving A range of case studies analyzing representations of war in art film museums and literature from Nigeria Australia Sri Lanka Canada and beyond questions our current approaches to memory studies while offering reinterpretations of established narratives Throughout a commitment to Indigenous perspectives to examining the ongoing legacy of colonialism and to a continued reckoning with the Second World War foregrounds what is often forgotten in the writing of a single official history War and Remembrance invites readers to cast a reflexive look at wars and conflicts past some of them forgotten others still vividly commemorated the better to understand the cultural political and social stake of memory as a source of conflict and exchange of resistance and opposition and of negotiation and reconciliation *Rhetoric, Remembrance, and Visual Form* Anne Demo, Bradford Vivian, 2012-03-12 This volume offers a multifaceted investigation of intersections among visual and memorial forms in modern art politics and society The question of the relationships among images and memory is particularly relevant to contemporary society at a time when visually based technologies are increasingly employed in both grand and modest efforts to preserve the past amid rapid social change The chapters in this book provide valuable insights concerning not only how memories may be seen or sighted in visual form but also how visual forms constitute noteworthy material sites of memory The collection addresses this central theme with a wealth of interdisciplinary and international approaches featuring conventional scholarly as well as artistic works from such disciplines as rhetoric and communication art and art history architecture landscape studies and more by contributors from around the globe Handbook of Culture and Memory Brady Wagoner, 2017-10-16 In the Handbook of Culture and Memory Brady Wagoner and his team of international contributors explore how memory is deeply entwined with social relationships stories in film and literature group history ritual practices material artifacts and a host of other cultural devices Culture is seen as the medium through which people live and make meaning of their lives In this book analyses focus on the mutual constitution of people's memories and the social cultural worlds to which they belong The complex relationship between culture and memory is explored in the concept of memory and its relation to evolution neurology and history life course changes in memory from its development in childhood to its decline in old age and the national and transnational organization of collective memory and identity through narratives propagated in political discourse the classroom and the media Re-Constructing Grassroots Holocaust Memory Irina Rebrova, 2020-10-26 The main objective of the book is to allocate the grass roots initiatives of remembering the Holocaust victims in a particular

region of Russia which has a very diverse ethnic structure and little presence of Jews at the same time It aims to find out how such individual initiatives correspond to the official Russian hero orientated concept of remembering the Second World war with almost no attention to the memory of war victims including Holocaust victims North Caucasus became the last address of thousands of Soviet Jews both evacuees and locals While there was almost no attention paid to the Holocaust victims in the official Soviet propaganda in the postwar period local activists and historians together with the members of Jewish communities preserved Holocaust memory by installing small obelisks at the killing sites writing novels and making documentaries teaching about the Holocaust at schools and making small thematic exhibitions in the local and school museums Individual types of grass roots activities in the region on remembering Holocaust victims are analyzed in each chapter of the book

Communities of Memory William James Booth, 2018-07-05 Memory has fueled merciless violent strife and it has been at the core of reconciliation and reconstruction It has been used to justify great crimes and yet it is central to the pursuit of justice In these and more everyday ways we live surrounded by memory individual and social in our habits our names the places where we live street names libraries archives and our citizenship institutions and laws Still we wonder what to make of memory and its gifts though sometimes we are hardly even certain that they are gifts Of the many chambers in this vast palace I mean to ask particularly after the place of memory in politics in the identity of political communities and in their practices of doing justice from the Preface W James Booth seeks to understand the place of memory in the identity ethics and practices of justice of political communities Identity is he believes a particular kind of continuity across time one central to the possibility of agency and responsibility and memory plays a central role in grounding that continuity Memory identity takes two forms a habitlike form the deep presence of the past that is part of a life led in common and a more fragile vulnerable form in which memory struggles to preserve identity through time notably in bearing witness a form of memory work deeply bound up with the identity of political communities Booth argues that memory holds a defining place in determining how justice is administered Memory is tied to the very possibility of an ethical community one responsible for its own past able to make commitments for the future and driven to seek justice Underneath and motivating the politics of memory understood as contests over the writing of history over memorials museums and canons he writes there lies an intertwining of memory identity and justice

Communities of Memory both argues for and maps out that intertwining

Crosses of Memory and Oblivion Miguel Ángel del Arco Blanco, 2023-07-31 This book explores the history and legacy of monuments to the fallen from the Francoist side in the Spanish Civil War Del Arco Blanco studies thousands of monuments in towns and cities across Spain to provide a detailed account of the history and memory of the civil war Francoism and the transition to democracy Chapters in the book focus on the myth of those said to have fallen for God and for Spain a phrase that encapsulated and shaped the dichotomy between good and bad Spaniards They also focus on the use of monuments to control political and ideological ideals and to legitimise

the Francoist dictatorship Further chapters study Spanish society's struggle to deal with its past of mass killing denial and exclusion Del Arco Blanco also pays attention to the way the Francoist authorities used monuments and memory for their political and ideological advantage and to control people power as well as the political agenda The book draws on extensive research to reconstruct both the specific history of monuments scattered throughout the country and their role within manipulative Francoist memory of the Spanish Civil War In these ways monuments helped shape the Francoist narrative and memory but they also became part of the landscape of contemporary Spanish history This book is an excellent resource for postgraduate students and professional researchers studying the aftermath of the Spanish Civil War and the influence of monuments on the construction of national memory culture and society in Spain both at the time and through to the present day
