The Complete Idiot's Guide to Improving Your Credit Score Lita Epstein, Lita, MBA Epstein, 2007 Consumers have known about credit reports for a long time we're well aware that lenders rely on them to determine whether they want to do business with us Any time we want to buy a house rent an apartment or take out a loan it's a safe assumption that one or several reporting agencies are going to be contacted to provide our credit history But we don't always realize that there's a single element on that report that determines success or failure and that's a three digit number called a credit score Created by Fair Isaac and Company this formerly secret FICO number was until fairly recently available only to lenders and businesses and although it's hush hush no longer many of us still don't understand it because there hasn't been enough information on what it is and what exactly lenders are looking for And we certainly haven't known how to make it work for us rather than against us In *The Complete Idiot's Guide to Improving Your Credit Score* author Lita Epstein clearly explains what your credit score is and how it impacts your life Rather than putting the focus squarely on credit emergencies it provides everything readers need to know to raise their score and keep it high now and in the future

Mastering Credit Adidas Wilson, Society relies heavily on credit for most financial decisions Today good credit is not just important for getting a loan or a credit card Many businesses have to check your credit before deciding whether or not they will extend their products and services to you Mortgage lenders need to be sure that you will pay your mortgage responsibly before they can finance you Without good credit the mortgage lender concludes that giving you a loan is risky for them If they still approve regardless of your poor credit they will charge you a very high interest rate Bad credit will see you

pay a higher mortgage amount or worse your mortgage application will be declined Just because you are not currently interested in buying a house does not mean that your credit does not matter Landlords will in most cases consult your credit before renting you a house or apartment Your lease is considered a loan You require a loan to purchase a car unless you have the full amount at hand Your credit score affects the loan amount and interest rate and whether or not you will be given the loan in the first place With excellent credit you will qualify for a higher loan amount and the interest rate will be lower A poor credit score translates to limited options Not many lenders will be ready to finance you and the few that will be willing might charge a very high interest rate
