Picture Book Parties! Kimberly M. Hutmacher, 2011-04-12 From the invitations to the suggested books games activities and themed party snacks this book makes it easy to plan a fun literacy event from start to finish Picture books storytime readings and parties are always popular with children because they find them highly entertaining These activities can also be very educational When children are engaged and enjoying themselves the learning process is naturally enhanced Picture Book Parties contains 25 fun storytime party ideas that will help teachers librarians parents and students celebrate popular picture books supplying all of the ideas and guidance to have great picture book parties in a classroom school library or home setting Each of the book s chapters is dedicated to a storytime subject and party theme containing a themed party invitation template suggested picture books party games party center activities and themed party refreshment ideas and recipes Picture Book Parties also includes a bonus chapter that offers a multitude of ways for teachers librarians and literacy coaches to connect students to their favorite authors

CyberLit Marilyn Dover Newman, 2004 Elementary school media specialists and teachers routinely use children s picture books in their lessons These books add depth and vitality to the curriculum because they are written and illustrated by some of the world s most gifted writers and artists Yet educators are finding it increasingly harder to insert this pleasant and important activity into the busy school day due to increased pressures to improve test scores to implement a standards driven curriculum and to stay abreast of new technologies to deliver instruction This book helps educators continue to incorporate literature into the school day in spite of these obstacles CyberLit is a book for those who work with or teach others who work with children in the primary grades It is for those who use trade books to supplement and enhance health science creative writing history geography reading math language arts character education multicultural studies holidays citizenship and the fine arts It s for those who love children s literature and book illustration With this book you no longer need to get lost in cyberspace The information has already been searched collected assessed and compiled Easily accessible and at your fingertips this directory can help you to get biographical information about authors and illustrators and to learn how they get ideas for stories how illustrations are created how to extend the books into the curriculum and where to find time saving lesson plans and book related activities for classroom projects and units These outstanding websites of children s authors illustrators and storybook characters were selected based on their educational value and for the fact that they contain a minimum of commercialization They are exemplary examples of authors publishers and scholars who understand and acknowledge the roles of teachers and librarians Like little gems in cyberspace they go beyond the ordinary content for busy educators

Air and Water in the Environment Jennifer Lawson, 2001 The nine lessons in the module introduce students to concepts about air and water including air temperature forms of water the water cycle and evaporation Students investigate sources and uses of water and environmental factors related to air and water pollution Also included materials lists activity descriptions questioning techniques activity centre and

extension ideas assessment suggestions activity sheets and visuals The module offers a detailed introduction to the Hands On Science program guiding principles implementation guidelines an overview of the skills that young students use and develop during scientific inquiry a list of children s books and websites related to the science topics introduced and a classroom assessment plan with record keeping templates
