During childhood, people in the United Kingdom, like those in most other countries, are not as likely to be vaccinated as people in the United States. In the United Kingdom, the vaccination schedule for children is based on the National Immunisation Schedule, which is a list of diseases that are considered to be most likely to cause serious illness or death. The schedule is updated regularly, and the government provides free vaccinations for all children under the age of 16. In the United States, the vaccination schedule is based on the Advisory Committee on Immunization Practices (ACIP) recommendations, which are based on the latest scientific evidence. The schedule is also updated regularly, and the government provides free vaccinations for all children under the age of 18.

The most important findings were consistent: that the 100% parties following the onset of the crisis in the United States and the United Kingdom had the best performance going forward. While the 1/3 parties (1/3) did not fared as well, they did not perform as poorly as the other parties.

**100 years on from the suffrage** The 1918-1920 period has not only been a century of peace, but also the century of the League of Nations. But it should equally be the century of the League of Nations in Africa. It is Africa's African century – the century of its strong contribution to the Movement for Africa, leading to the United Nations to start the second general assembly in 1955. The 100th anniversary of Africa will be celebrated in Addis Ababa. This is what the new theme is one of the world's highest culture events.
