Our experience is that the bonus plan provides good incentives for staff. The bonus plan has the ability to not only allow team members to influence their own remuneration both in terms of generating revenue but also to be rewarded for individual out performance on their personal KPIs.

It works well when team members recognise they are more likely to generate additional salary from hitting bonus targets than waiting for a pay rise. This message needs to be communicated to the team. Of course, it is only useful if it benefits the company overall and this is guaranteed by virtue of the pool only being triggered when stretch revenue budgets are met.
