

This manual describes the **installation or construction** within areas of **your project** as located within the **Project description**. This manual must be read in conjunction with other related documentation, which forms part of the Health and Safety file for the premises, systems, and equipment installed.

The Health and Safety file is a set of documentation, (typically sets of manuals and drawings), intended for the client/end user focused primarily on health and safety when dealing with maintenance, repair, or construction works carried out on the premises.

#### Manual Contents

To obtain the most benefit from this manual, it should be read in conjunction with all related documents located in other related sections of the manual as well as the Health and Safety file. Users of the manual should ensure that other documentation is current and updated to suit all situations applicable. This manual has been produced in appropriate sections, with each section of the manual dealing the different aspects of the operating and maintenance requirements. It is essential that all aspects of Health & safety, relating to the intended task, are understood prior to commencement of any maintenance or repair work. The law imposes a responsibility on the employer to ensure safety at work for all employees, and much of the law regarding safety at work can be found in the Health and Safety at Work Act 1974. Integral would further stress that Health & Safety is the responsibility of all who work on potentially hazardous systems and equipment, and this manual is directed to specifically assist in keeping all employees safe in the workplace. If you have a reason to read this manual, then means you!

#### Users

This Operating and Maintenance Manual has been prepared to provide guidance and recommendations to assist the following persons in the understanding, running and maintenance of the equipment installed under this contract and as subsequently described in this manual. It is assumed that the users of the documentation will fall into one of the categories listed below. It is further assumed that the correct instruction and training has been provided by the client or appointed representative to the users of this manual.

1. Users of the building – trained designated personnel who can operate and use controls eg. electrical cabling and electrical infrastructures, distribution boards, electrical switch gear, lighting controls, and system overrides. Additionally they would be able to contact appropriate personnel in the event of an emergency.
2. Managers of the building and services – technically qualified senior personnel who have an understanding of the systems and their operation. It is assumed such managers would know how to operate the systems, understand how to deal with emergency and other situations.
3. Employees, (both directly employed staff and contractors) who carry out maintenance and repair as it relates to the equipment installed under this contract and as subsequently described in this manual.
