Scientific and Technical Aerospace Reports ,1985 **Analytical Essays on Music by Women Composers: Concert Music, 1960-2000** Laurel Parsons,Brenda Ravenscroft,2016-03-18 Over the past 30 years musicologists have produced a remarkable new body of research literature focusing on the lives and careers of women composers in their socio historical contexts But detailed analysis and discussion of the works created by these composers are still extremely rare This is particularly true in the domain of music theory where scholarly work continues to focus almost exclusively on male composers Moreover while the number of performances broadcasts and recordings of music by women has unquestionably grown these works remain significantly underrepresented in comparison to music by male composers Addressing these deficits is not simply a matter of rectifying a scholarly gender imbalance the lack of knowledge surrounding

the music of female composers means that scholars performers and the general public remain unfamiliar with a large body of exciting repertoire

Ezra Pound John Tytell, 2013-02-06 Unlike other biographical portraits of Ezra Pound John Tytell's brilliant and ambitious work offers an interpretive study that boldly confronts the emotional truths and psychological drama that formed this complex and controversial American poet Neither an apology nor a condemnation it presents instead a meticulous exploration into the mind and vision of a man who galvanized a generation and challenged an entire literary and world establishment Although he enjoyed little fame in his lifetime Pound's notoriety and influence were enormous as he arrogantly slashed away at convention and almost single handedly brought about the twentieth century revolution in poetry known as modernism Ultimately outrage and scandal turned his art to madness and Pound's last years saw him fall tragically silent
