

## Space Trips

The bus ride started at 6:15 in the morning. It was cold, dark, and everyone was tired, except for me. I was so excited about the trip, I couldn't possibly be tired. The bus ride was very long and all-together boring. It took us a whole six and a half hours to get there. I colored in a My Little Pony coloring book. Finally we arrived.

When I got into my room it smelled really bad. I put my Toy Story sheets onto my bed and held my nose while waiting for everybody else. Then it was time to go learn about space. When we met our leader I was so excited. His name was Brandon, and he was young, fun, and energetic. He really made everything fun.

The best part about the whole thing was probably being with friends and the awesome simulators. There was the G-force, 5 DF chair, and the MAT, and my favorite, the Space Shot. The G-Force was awesome, but it made me feel pretty sick.

Another thing that made me sick was some of the food at camp. The best food was hamburger helper or chicken fingers. Everything else was chewy, and all the same color.

Above all I had an awesome time at Space camp. I learned a lot and had fun.

Each assignment also includes a reproducible outline that presents the assignment to students in a simplified graphical format. The pedagogical philosophy underlying this program is simple and effective. It seeks to provide students with enjoyable writing assignments that students will understand, learn from, and complete. *Self-Regulation and the Common Core* Marie C. White, Maria K. DiBenedetto, 2015-03-27

The Common Core State Standards for English Language Arts created new challenges for teachers and pre-service instructors. Self-regulated learning, using one's thoughts, feelings, and behaviors to reach goals, can help students become independent, self-directed learners. This book provides educators the support they need to apply the principles of self-regulated learning in their teaching for success with the Common Core. In this book, Marie C. White and Maria K. DiBenedetto present information on how to apply academic self-regulation by integrating two models: one which addresses how students develop self-regulatory competence, the other which focuses on the various processes within the three phases of self-regulated learning. In addition, *Self-Regulation and the Common Core* provides specific lesson plans for grades K-12 using the standards and the integrated framework to promote higher-order thinking and problem-solving activities.
