Fast Food Nation Eric Schlosser, 2012 An exploration of the fast food industry in the United States from its roots to its long term consequences **FTC Franchising Regulation** United States. Domestic and International Business Administration, 1988 This is a directory of companies that grant franchises with detailed information for each listed franchise **Reports of the United States Tax Court** United States. Tax Court, 1992 Kept up to date by a monthly publication called United States Tax Court Reports Fast Food, Fast Talk Robin Leidner, 1993-08-04 Attending Hamburger University Robin Leidner observes how McDonald s trains the managers of its fast food restaurants to standardize every aspect of service and product Learning how to sell life insurance at a large midwestern firm she is coached on exactly what to say how to stand when to make eye contact and how to build up Positive Mental Attitude by chanting I feel happy I feel terrific Leidner s fascinating report from the frontlines of two major American corporations uncovers the methods and consequences of regulating workers language looks attitudes ideas and demeanor Her study reveals the complex and often unexpected results that come with the routinization of service work Some McDonald s workers resent the constraints of prescribed uniforms and rigid scripts while others appreciate how routines simplify their jobs and give them psychological protection against unpleasant customers Combined Insurance goes further than McDonald s in attempting to standardize the workers very selves instilling in them adroit maneuvers to overcome customer resistance The routinization of service work has both poignant and preposterous

consequences It tends to undermine shared understandings about individuality and social obligations sharpening the tension between the belief in personal autonomy and the domination of a powerful corporate culture Richly anecdotal and accessibly written Leidner s book charts new territory in the sociology of work With service sector work becoming increasingly important in American business her timely study is particularly welcome Re-Thinking the Future of Work Colin C. Wharton,2015-11-17 The Great Recession brought rising inequality and changing family economies New technologies continued to move jobs overseas including those held by middle class information workers The first new edition to capture these historic changes this book is the leading text in the sociology of work and related research fields Wharton s readings retain the classics but offer a new spectrum of articles accessible to undergraduate students that focus on the changes that will most affect their lives New to the fourth edition Rational Leadership Paul Brooker,Margaret Hayward,2024-02-16 This work takes examples of iconic corporations to show how business leaders can use rational methods to develop companies and inspire people with confidence It studies General Motors Toyota McDonalds Walmart Intel Armani and eBay through autobiographical writings and historical sources **Tax Court reported and memorandum decisions** ,1993 **Determinations of the National Mediation Board** United States. Labour Relations in the Global Fast-Food Industry Tony Royle,Brian Towers,2004-08-02 The fast food industry is one of the few industries that can be described as truly global not least in terms of employment which is estimated at around ten million people worldwide This edited volume is the first of its kind providing an analysis of labour relations in this significant industry focusing on multinational corporations and large national companies in ten countries the USA Canada the UK the Netherlands Germany Australia New Zealand Singapore and Russia The extent to which multinational enterprises impose or adapt their employment practices in differing national industrial relations systems is analysed Results reveal that the global fast food industry is typified by trade union exclusion high labour turnover unskilled work paternalistic management regimes and work organization that allows little scope for developing workers participation in decision making let alone advocating widely accepted concepts of social justice and workers rights
