

The background of the cover is an abstract geometric illustration. It features a dark grid that recedes into the distance, creating a sense of depth. A prominent red, curved surface, possibly representing a constraint plane or an objective function, cuts across the middle of the image. Several white lines and dashed lines are drawn on this surface and the grid, representing mathematical constructs like feasible regions or optimization paths. Red dots are placed at various points along these lines, and white arrows indicate a sequence of steps or a path through these points, likely illustrating an optimization algorithm like the simplex method.
