**Perception Is Reality** Fred Gibson, 2014-11-14 Agent Tiki Gibbs 25 year veteran of The Agency a super secret government group that specializes in finding people who do not wish to be found receives a message in the form of a simple piece of paper in a windstorm The notecard only says I m Searching For You Agent Gibbs as levelheaded and grounded as they come looked upon the message warily Maybe it was nothing more than simple human curiosity that got him to make that initial inquiry Maybe it was the oddity that the message kept changing in his hands sometimes adding a picture of an island paradise other times adding ten simple digits a phone number in Hawaii But mostly it was the fact that only HE could see the message No one else not even his girlfriend Christiana could see anything other than a blank piece of paper Making that phone call started Agent Gibbs off on the biggest manhunt of his career a search that takes him across the country looking for 96 escapees of the Perception Is Reality Project Where those escapees are going is not the big question Where they have come from IS

*Intimacy and the Anxieties of Cinematic Flesh* Patrick Fuery, 2023-01-26 In a return to Edmund Husserl and Sigmund Freud Intimacy and the Anxieties of Cinematic Flesh explores how we can engage these foundational thinkers of phenomenology and psychoanalysis in an original approach to film The idea of the intimate spectator caught up in anxiety is developed to investigate a range of topics central to these critical approaches and cinema including flesh as a disruptive state formed in the relationships of intimacy and anxiety time and the formation of cinema s enduring objects space and things the sensual the real and the unconscious wildness disruption and resistance and the nightmare reading phantasy across the critical fields Along with Husserl and Freud other key thinkers discussed include Edith Stein Roman Ingarden Maurice Merleau Ponty Mikel Dufrenne in phenomenology Melanie Klein Ernest Jones Julia Kristeva and Rosine Lefort in psychoanalysis Framing these issues and critical approaches is the question how might Husserlian phenomenology and Freudian Lacanian psychoanalysis so often seen as contradistinctive be explored through their potential commonalities rather than differences In addressing such a question this book postulates a new approach to film through this phenomenological psychoanalytic reconceptualization A wide range of films are examined not simply as exemplars but to test the idea that cinema itself can be a version of critical thinking

*Social Cognitive Psychology* David F. Barone, James E. Maddux, C. R. Snyder, 2012-11-19 A pragmatic social cognitive psychology covers a lot of territory mostly in personality and social psychology but also in clinical counseling and

school psychologies It spans a topic construed as an experimental study of mechanisms by its natural science wing and as a study of cultural interactions by its social science wing To learn about it one should visit laboratories field study settings and clinics and one should read widely If one adds the fourth dimension time one should visit the archives too To survey such a diverse field it is common to offer an edited book with a resulting loss in integration This book is coauthored by a social personality psychologist with historical interests DFB Parts I II and IV in collaboration with two social clinical psychologists CRS and JEM Parts III and V We frequently cross reference between chapters to aid integration without duplication To achieve the kind of diversity our subject matter represents we build each chapter anew to reflect the emphasis of its content area Some chapters are more historical some more theoretical some more empirical and some more applied All the chapters reflect the following positions

Emmanuel Obiora Igbokwe, 2023-01-10 International Arbitration Law Library Volume 65 International commercial arbitration is by no means free from bribery and corruption Although a plethora of legal scholarship clearly affirms this contention a thorough study on the particularly important question of the authority and duty of international commercial arbitrators to investigate a suspicion or indication of bribery or corruption sua sponte that is on their own initiative has been surprisingly lacking This important book fills this gap inter alia by locating sua sponte authority in the position of arbitral tribunals in establishing the facts of a case and ascertaining and applying the applicable normative standards In addition to providing a comprehensive examination of how the issue of bribery and corruption is dealt with in contemporary international commercial arbitration the book also highlights the role of arbitrators in global efforts to combat transnational commercial bribery and corruption Among others the following critical issues are thoroughly investigated arbitrability of issues of public interests intermediary contracts role of arbitrators in the fact finding process party autonomy versus overriding mandatory rules iura novit curia in international commercial arbitration in the context of bribery and corruption notion of transnational or truly international public policy arbitrators duty to act as guardians of international commerce investigative tools available to arbitrators dealing with manifestly recalcitrant parties possible consequences of violating the obligation to sua sponte investigate and

the view from developing countries The analysis leans primarily on Swiss law as Switzerland is one of the most important jurisdictions in international commercial arbitration Switzerland has also been involved in some of the most famous and controversial arbitration cases wherein bribery and corruption became an issue However the study also includes a comparative analysis of the relevant laws jurisprudence and doctrine of other major arbitration venues particularly England France and Germany Not only in the light it sheds on how and whether international commercial arbitrators have hitherto justified the trust States have placed in them regarding the protection of the public interests but also in the practical solutions it offers arbitrators faced with issues of bribery and corruption this deeply researched book equips arbitration practitioners and arbitration institutions with a hitherto lacking in depth analysis on the question of sua sponte investigation It also provides invaluable insights on how this issue might affect the future legitimacy and expansion of this dispute settlement mechanism Outside the field of arbitration the book also provides jurists legal scholars in house counsel for companies doing transnational business and public officials with highly enlightening perspectives on the interaction between international commercial arbitration and public interests Handbook of Psychology, Experimental Psychology Alice F.

**Food Texturology: Measurement and Perception of Food Textural Properties** Andrew Rosenthal, Jianshe Chen, 2023-12-20 The concept behind this book is to take a holistic view of food texture starting with the determination of food texture its perception in the mouth and its measurement by both sensory and instrumental methods and to examine the relation between them The book has been divided into four sections Fundamentals Sensory and Human Interactions Instrumental Analysis and Food Products Essentially we cover the techniques used for measuring food texture and then apply them to the different product groups Readers of the first edition will notice the title has changed with the adoption of the term texturology In the long history of food texture research texturology has been occasionally used in literature The term texturology has not been widely accepted by texture researchers texturologists because of their concern over whether the theories and techniques are broad and strong enough to support texture research as a scientific discipline

During the 24 years since the publication of the first edition the editors have observed vast developments in theories as well as the assessment methodology of food texture both sensory and instrumental and these have shaped our understanding This second edition brings the science up to date by introducing topics not previously covered e g psychophysics tribology oral processing texture maps and special foods for dysphagia patients It includes an expos of the instruments to measure food texture and also considers techniques for measuring consumer perception of food texture in addition to the sensory properties Additionally it amends omissions from the first edition such as dairy products fish bakery products and sugar confectionery asproduct groups All in all it is expanded and updated in its coverage of food texturology as a coherent scientific discipline
