

Guide to Formal Essay Writing

This guide to essay writing has been created by teachers of Frederickton High School to help you research, write, reference, and format your essay. Each section contains a list of helpful links that will assist you with essay writing. These links have been tried and approved by FHS teachers.

At the end of this guide are three links to sample essays, formatted to match the three styles of writing that are used at FHS.

I. BEGINNING YOUR PAPER - Topic Selection and Research

- (a) **Topic Selection:** Your topic should be something you are interested in within the confines of the course you are taking and at the instructor's discretion.
- (b) **Research:** Read as much as you can about your topic. Find as many academic sources about your topic as possible. Books are best; however, academic websites work, too (these are primarily .edu sites).
- (c) Once you understand your topic, **create a "why" or "how" question** that will generate discussion or argument.
- (d) **Thesis Statement:** Formulate a thesis statement that begins to answer the question you have about your topic. This should include an argument and several reasons to help prove your argument.
- (e) **Format:** Establish the format for your paper. This may be dependent upon the class or discipline for which you are writing your paper. Common formats include APA style, Chicago-manual style, or MLA style.
