

A Personal Philosophy

By Bob Krone

Dedicated to Mae Sue Krone, whose love, guidance,
and partnership nurtured its evolution

Abstract

After a life of diverse professional activities, including earning a doctor of philosophy degree and editing the *Journal of Space Philosophy*, Bob Krone decides to describe the origins and evolution of his own values and philosophy.

Keywords: values, learning, self-examination, teaching, leadership, academics, systems, space, philosophy, humanity.

Introduction

Michel Montaigne (1533-1592) is credited with inventing the essay form with his classic work *Essais* (1st Edition, 1580). He lived and reworked his essays in a French rural retreat after being the Mayor of Bordeaux from 1581-1585. Since then, essays have traditionally been short statements feeling their way towards expression of what needs a far wider space to exhaust. Using the Montaigne essay style here, I have not provided specific references for statements throughout this article. Interested readers can find my complete resume/curriculum vitae at www.bobkrone.com/node/103.

Every human being has a personal life philosophy. It was formed by a complex lifetime mix of genetics, environment, and learning over time. A small percentage of humans have explicitly documented their own philosophy as an analysis of their own value systems, or to understand the values, sources, and influences on their beliefs over time. My definition of *values* – created during my doctoral studies at UCLA – is “Values are principles or things preferred.” That is different from the economic definition of value, which is usually oriented toward quantitative worth. Philosophy and values are not synonymous, but have many commonalities. Philosophy is oriented toward total life meaning, while values form the components of that totality.

Most people’s personal philosophy is created and evolves from experiences and just living, not from conscious reflection and design. Is that not the best way to develop philosophy? For some, it may be. But the belief I bring to this article is that individual, family, group, organization, agency, business, society, national, international, and human existence would improve with wiser and more explicit self-examination of values and philosophy. There is value in knowing answers to the questions: *What do I believe?* and *How should my beliefs impact my behavior?*

Dr. Paul R. Cone was my mentor for two university faculty appointments – the University of Southern California in 1975 and La Sierra University, Riverside, California in 1992. Paul was a wise, compassionate, and brilliant leader in both academics and business. One of the many lessons I learned from Paul Cone he had condensed into

Philosophers in the Classroom Steven M. Cahn, Alexandra Bradner, Andrew P. Mills, 2018-09-15 In these essays 24 of our most celebrated professors of philosophy address the problem of how to teach philosophy today how to make philosophy interesting and relevant how to bring classic texts to life how to serve all students and how to align philosophy with more practical pursuits. Selected and introduced by three leaders in the world of philosophical education the insights contained in this inspiring collection illuminate the challenges and possibilities of teaching the academy's oldest discipline.

Introduction to Teaching Gene E. Hall, Linda F. Quinn, Donna M. Gollnick, 2015-12-09 Introduction to Teaching Making a Difference in Student Learning Second Edition is the ideal text for aspiring teachers. Acclaimed authors Gene Hall Linda Quinn and Donna Gollnick thoroughly prepare teacher education candidates to make a difference as teachers presenting first hand stories and evidence based practices while offering a student centered approach to learning. The authors target one of the biggest challenges facing many of today's schools making sure that all students are learning and help teachers make student learning the primary focus in all that they do. From true to life challenges that teachers will face high stakes testing student learning assessments low teacher retention Common Core Standards to the inspiration and joy they will discover throughout their teaching careers this text paints a realistic picture of the real life of a teacher.

Nursing Theories and Nursing Practice Marlaine Smith, 2025-02-03 What is nursing? Noted nursing scholars explore the historical and contemporary theories that are the foundation of nursing practice today. The only nursing research and theory book with primary works by the original theorists the 6th Edition focuses on the relevant need to know content that links theory to clinical practice. Students explore the role of these theories in the real world to see how they guide nursing practice.

Educating through Popular Culture Edward Janak, Ludovic A. Sourdot, 2017-03-01 This edited volume serves as a place for teachers and scholars to begin seeking ways in which popular culture has been effectively tapped for research and teaching purposes around the country. The contents of the book came together in a way that allowed for a detailed examination of teaching with popular culture on many levels. The first part allows teachers in PreK-12 schools the opportunity to share their successful practices. The second part affords the same

opportunity to teachers in community colleges and university settings The third part shows the impact of US popular culture in classrooms around the world The fourth part closes the loop to some extent showing how universities can prepare teachers to use popular culture with their future PreK 12 students The final part of the book allows researchers to discuss the impact popular culture plays in their work It also seeks to address a shortcoming in the field while there are outlets to publish studies of popular culture and outlets to publish pedagogical practitioner pieces there is no outlet to publish practitioner pieces on studying popular culture in spite of the increased popularity and legitimacy of the field Teacher Thinking Twenty Years on Pam M. Denicolo, Michael Kompf, 2003-01-01 The papers from the first two International Study Association on Teachers and Teaching conferences are presented in this title as book chapters Each paper has historical value marking as they do both a change in topic focus and a revolution in research practice They also have a practical value in that they provide a large reference source for What Counts in Teaching Mathematics Sandy Schuck, Peter Pereira, 2011-02-04 In this book internationally recognised scholars and practitioners synthesise current practice and research developments in the area of mathematics teacher education and mathematics education The book's two sections examine the role and significance of collaborations and critical friends in the self study of mathematics teaching and teacher education and the emerging conflicts dilemmas and incongruities arising from the study of mathematics education practices The book considers the insights gained from self analysis regarding the practitioner themselves as well as their pedagogical content students and approaches The contributions highlight the complexity characteristics and features of mathematics education The chapters reveal nuances in teaching and learning that are of particular relevance in mathematics education In addition the book contains ideas and suggestions on how to enhance the teaching of mathematical content to pre service teachers Accordingly the book appeals to a wide audience of educators including education academics teachers student teachers and researchers As teacher educators involved in mathematics education reflection on practice and engagement in practitioner research is becoming increasingly important in our efforts to enhance our teaching Teachers and student teachers also gain from the insights arising from such reflection The knowledge and experience encapsulated in this book provides much for the mathematics education community to build on **Writing in College** Patricia Simmons Taylor, 1989 *The Career Advancement Portfolio* Beverly J. Irby, Genevieve Brown, 2000-07-18 Frequently people who want to advance in their careers or to change careers need assistance To meet this need the authors of The Principal Portfolio have expanded one of its chapters into The Career Advancement Portfolio a powerful marketing tool for the educator seeking better job opportunities If you are about to begin a job search perhaps you are not looking forward to developing a portfolio Perhaps it appears to be an overwhelming task and if you are not certain of just how to go about it trying to create a portfolio can be a frustrating and intimidating experience The Career Advancement Portfolio is designed to make developing your portfolio manageable and rewarding The step by step process outlined in the book will enable you to create in a sequential and stress free manner a

Illusions of Equality (International Library of the Philosophy of Education Volume 7) David Cooper, 2010-02-25 Educational policy and discussion in Britain and the USA are increasingly dominated by the confused ideology of egalitarianism David E Cooper begins by identifying the principles hidden among the confusions and argues that these necessarily conflict with the ideal of educational excellence in which conflict it is this ideal that must be preserved He goes on to criticize the use of education as a tool for promoting wider social equality focussing especially on the muddles surrounding equal opportunities social mix and reverse discrimination Further chapters criticize the new egalitarianism favoured on epistemological grounds by various sociologists of knowledge in recent years and cultural egalitarianism according to which standard criteria of educational value merely reflect parochial and economic interests

The War on Science Lawrence Krauss, 2025-09-25 An unparalleled group of prominent scholars from wide ranging disciplines detail ongoing efforts to impose ideological restrictions on science and scholarship throughout western society From assaults on merit based hiring to the policing of language and replacing well established disciplinary scholarship by ideological mantras current science and scholarship is under threat throughout western institutions As detailed by this group of prominent scholars who range across many different disciplines and political leanings the very future of free inquiry and scientific progress is at risk Many who have spoken up against this threat have lost their positions and a climate of fear has arisen that
