3 connecting the systems

1. How does the technology in *Avatar* fit the genre?

1. Do not connect the cable to the bus system. This might give rise to a system lock.
 2. When connecting the system, check the address, name and the channel in the menu.
 3. Plug the electronic module into a slot in station or to its master station that handles that mode. A slot assignment can be read from the electronic module.
 4. Do not hang the electronic cable through the slot itself.
4. As soon as a system is ready to be started, you can be informed about the progress of the process by the station. This includes, for example, the time of day and the day of the week.
