Imagination for Inclusion Derek Bland, 2016-02-12 *Imagination for Inclusion* offers a reconsideration of the ways in which imagination engages and empowers learners across the education spectrum from primary to adult levels and in all subject areas. Imagination as a natural expedient and exciting learning tool should be central to any approach to developing and implementing curriculum but is increasingly undervalued as learners progress through the education system. This disregards not only imagination's potential but its paramount place in informing truly inclusive approaches to teaching and learning. This book presents a new theory of imagination and includes discussion about its application to teaching and learning to increase the engagement of disaffected students and reinvigorate their relationships with curriculum content. Chapters include key ideas and discussion surrounding the benefits of introducing imaginative practices into the classroom for learners from a range of marginalised backgrounds such as young people with disabilities and adult learners from socio-economically disadvantaged environments. In exploring imagination in the practice of inclusive education, the book includes chapters from researchers and practitioners in education who have fresh ideas about how learners and teachers have benefited from introducing imaginative pedagogies. The diverse collection featuring writers with backgrounds from early childhood to adult education will be essential reading for academics and researchers in the fields of education, inclusive education, social policy, professional development, teacher education, and creativity. It will be of particular interest to current and pre-service teachers who want to develop inclusive practice and increase the engagement of all students with formal education.

Fragile World William T. Cavanaugh, 2018-05-22 In *Fragile World Ecology and the Church* scholars and activists from Christian communities as far flung as Honduras the Philippines Colombia and Kenya present a global angle on the global ecological crisis in both its material and spiritual senses and offer Catholic resources for responding to it This volume explores the deep interconnections for better and for worse between the global North and the global South and analyzes the relationship among the physical environment human society culture theology and economics the integral ecology described by Pope Francis in *Laudato Si* Integral ecology demands that we think deeply about humans and the physical environment but also about the God who both created the world and sustains it in being At its root the ecological crisis is a theological crisis not only in the way that humans regard creation and their place in it but in the way that humans think about God For Pope Francis in *Laudato Si* the root of the crisis is that we humans have tried to put ourselves in God s place According to Pope Francis therefore A fragile world entrusted by God to human care challenges us to devise intelligent ways of directing developing and limiting our power

Bridget Riley: The Stripe Paintings 1961-2014 Bridget Riley, 2014-10-31 Published on the occasion of Bridget Riley s major exhibition at David Zwirner in London in the summer of 2014 this fully illustrated catalogue offers intimate explorations of paintings and works on paper produced by the legendary British artist over the past fifty years focusing specifically on her recurrent use of the stripe motif Riley has devoted her practice to actively engaging viewers through elementary shapes such as lines circles curves and squares creating visual experiences that at times trigger optical sensations of vibration and movement The London show her most extensive presentation in the city since her 2003 retrospective at Tate Britain explored the stunning visual variety she has managed to achieve working exclusively with stripes manipulating the surfaces of her vibrant canvases through subtle changes in hue weight rhythm and density As noted by Paul Moorhouse Throughout her development Riley has drawn confirmation from Eugene Delacroix s observation that the first merit of a painting is to be a feast for the eyes Her most recent stripe paintings are a striking reaffirmation of that principle exciting and entrancing the eye in equal measure Created in close collaboration with the artist the publication s beautifully produced color plates offer a selection of the iconic works from the exhibition These include the artist s first stripe works in color from the 1960s a series of vertical compositions from the 1980s that demonstrate her so called Egyptian palette a narrow chromatic range that recalled natural phenomena and an array of her modestly scaled studies executed with gouache on graph paper and rarely before seen A range of texts about

Riley's original and enduring practice grounds and contextualizes the images including new scholarship by art historian Richard Shiff texts on both the artist's wall paintings and newest body of work by Paul Moorhouse 20th Century Curator at the National Portrait Gallery in London and a 1978 interview with Robert Kudielka her longtime confidant and foremost critic. Additionally the book features little seen archival imagery of Riley at work over the years documentation of her recent commissions for St Mary's Hospital in West London taken especially for this publication and installation views of the exhibition itself installed throughout the three floors of the gallery's eighteenth century Georgian townhouse located in the heart of Mayfair.

Subversion 2.0 Christopher Whyte, 2024 Why are conspiracy theories extremist rhetoric and acts of antagonism by fringe elements of society so much more visible today than in years past In *Subversion 2.0* Christopher Whyte makes the case that leaderlessness characterized by an evolving and uneven feedback loop linking fringe spaces to mainstream elite rhetoric and popular discourse has emerged as the default format of subversive activity in the digital age By examining the uneven feedback loop of leaderlessness Whyte argues that social Internet platforms act as a vehicle for transmitting and amplifying extreme rhetoric but often fail to moderate extremism in turn
