Robinson Crusoe tries again Werner Ustorf,2010-09-15 The Christian experience in modern Europe is fragmented It shows great diversity in various geographical contexts and historically a considerable alternation of extremes high or low tides of engagement One aspect of the Christianity in Europe s past is its mission history The spread of Christianity from the West as one of its most important results into the continents of the Global South has been deeply ambivalent in character On the one hand the mission from the West helped to build the historical foundations for Christian education adolescence and maturation to responsible adulthood in a global diverse segregated and pluralistic world As a mature global player Christianity was in a prime position to contribute to peaceful conflict resolution in the religious social and political fields On the other hand the darkness and utter insufficiency of the encounter between the European Christian self and the many others worldwide brought along problematic projections of different beliefs attacked in a hostile way as alien and inevitably as conquered The consequences particularly for the primal other the indigenous people were often disastrous Werner Ustorf has been a leading missiologist worldwide for thirty years This book not only analyses the interaction between mission and individual the construction of the self and the other in a mission context but also proves the analytical strength of theology in conceptualizing future Christian experiences in Europe Ustorf illustrates that apart from traditional dimension of faith a non religious interpretation and critical trust in transcendence is crucial for the formation of the new interculturalization of Christianity in Europe Thus this book demonstrates how mission history can be transformed to a research concept for a global and pluralistic Christianity

Healing from the Heart Mehmet C. Oz M.D.,Ron Arias,1999-10-01 Dr Mehmet Oz celebrated heart surgeon and co founder of the Complementary Care Center at New York s Columbia Presbyterian Hospital is spearheading the health care revolution that is yielding powerful new healing tools that will forever change the way we think of medicine In this ground breaking book he describes his pioneering work combining cutting edge Western medicine with such Eastern techniques as acupuncture and chi gong as well as such controversial therapies as hypnosis music massage reflexology aromatherapy and energy healing The inspiring and affecting stories of his patients are the heart of this book from the extraordinary discipline of Frank Torre who used his professional sports training to psych himself into healing after heart transplant surgery to the impossible recovery of blues great Johnny Copeland who was roused from a seemingly impenetrable coma through the force of his own music In recounting his patients experiences Dr Oz forges a blueprint for the radical new medicine of the next millennium drawing on the best from Eastern and Western therapies and empowering patients to become partners with doctors in promoting their own recovery **The Postmodern Mythology of Michel Tournier** Melissa Panek,2012-03-15 Michel Tournier defines the supreme mission of a writer to be the creation of a mythology which allows for interaction with his readers who seem to be losing their critical faculties in our contemporary postmodern world dominated by consumption and dizzying technological advances Our contemporary society has changed due to the end of the modern era with its reigning ideologies Collapsing after the atrocities of the Second World War Modernity and the artistic and literary reactions referred to as modernism have likewise been transformed Myth continues to represent the collectivity of human existence yet in the short stories and novels of Michel Tournier myth represents the collapse of the all encompassing ideologies inherent to

the Modern era The grand narratives of Modernity such as Christianity and Man's reason have been deconstructed in the postmodern era The mythology of Michel Tournier expresses these trends towards the dissolution of Modernity and creates individual mini narratives which emphasize the particularity of individual existence Tournier takes established mythical models rooted in Christianity fables and legends of Western Civilization and re contextualizes them Through a semiotic reworking of core binary pairs of a myth Tournier creates a third order level of representation which modifies the mythical model The works of *le Roi des Aulnes* *Gilles et Jeanne* and *Vendredi* are illustrious of this third order level of signification According to Ferdinand de Saussure Roland Barthes and Claude Lévi Strauss the structural make up of myth transforms established meanings according to the dominant cultural code Barthes semiological study of myth reveals the levels of representation through which myth creates meaning Myth builds upon the denotative first order level of language and through a connotative process creates a second order level This connotative process does not end on this second order for in the writings of Tournier this semiological process is continued to a third order which re contextualizes the myth again Tournier adapts myth to the unique traits of the postmodern era including deconstruction and playfulness by allowing the reader to provide the context of the story As such we the reader take the place as author of our own individual mythology
