

Position 2

Crown pulled out to the first notch. By turning the crown the hour hand can be moved clockwise or anti-clockwise in one hour jumps. The watch continues to run normally so that the precise time is not affected when setting the hour hand for a new time zone.

To change the date, just keep turning the hour hand, this can be done in either direction. When changing the date forwards in the afternoon or backwards in the morning make sure to turn the hour hand around twice to ensure that the date changes at midnight and not midday.

Position 3

Crown pulled out to the last notch.

The sweep second hand stops and the watch can be set to the exact time. The second hand will beat after the crown is pushed back in.

Screw down the crown tightly so that the watch is waterproof.

Wrong About Japan

Peter Carey,2012-07-10 Previous winner of two Booker Prizes Peter Carey expands his extraordinary achievement with each new novel but now gives us something entirely different When famously shy Charley Carey becomes obsessed with Japanese manga and anime Peter is not only delighted for his son but entranced himself Thus with a father sharing his twelve year old s exotic comic books begins a journey that will lead them both to Tokyo where a strange Japanese boy will become both their guide and judge The visitors quickly plunge deep into the lanes of Shitimachi into the weird stuff of modern Japan meeting manga artists and anime directors visualists who painstakingly impersonate cartoons and solitary otakus who lead a computerized existence What emerges from these encounters is a pithy far ranging study of history and culture both high and low from samurai to salaryman from kabuki theatre to the post war robot craze Peter Carey s observations are provocative even though his hosts often point out politely that he is wrong about Japan In adventures that are comic surprising and ultimately moving father and son cope with and learn from each other in a place far from home No Real Japan said Charley You ve got to promise No temples No museums What could we do We could buy cool manga There ll be no English translations I don t care I d eat raw fish excerpt from Wrong About Japan

Mastering the Universe

Rob Larson,2024-08-20 Economist Rob Larson combines wit righteous anger and clear eyed analysis as he dissects the lifestyle moral bankruptcy and stupidly large sums of money hoarded by the disgustingly wealthy The fact that we live in one of the most unequal societies in the history of the world is becoming common knowledge And while lists of richest people in x country may be easy to come by how much do we really know about the billionaires who sit atop our global economic system Who are they really How did they accumulate their ill gotten gains And what kind of depravities do they use to maintain their positions

Turning their own weapons of class war against them from the fawning profiles found in the Mansion section of the Wall Street Journal to the national income data buried in white papers meant solely for investors and technocrats Larson crunches the numbers so you don't have to But he doesn't stop there because appreciating the sheer scale of the global wealth gap doesn't even touch on all the ways the ruling class are making us miserable breaking our society to pieces and destroying the planet in their pursuit of ever increasing power and profit As we behold whole continents on fire pandemics thrashing public health systems to smithereens and declining lifespans for the vast majority Larson argues that the only way forward is to yank on the emergency break and give capitalism the boot
