Semiotic Approach to the Theology of Inculturation Cyril Orji, 2017-08-31 A Semiotic Approach to the Theology of Inculturation argues that though it is a difficult and delicate task inculturation is still a requisite demand of a World Church and that without it the Church is unrecognisable and unsustainable The book also suggests that the past failures of inculturation experiments in Africa can be overcome only by critically applying the science of semiotics which can serve as an antidote to the nature of human knowing and reductionism that characterised earlier attempts to make Christianity African to the African Drawing from the semiotic works of C S Peirce Clifford Geertz and Bernard Lonergan Cyril Orji shows why semiotics is best suited to an African theology of inculturation and offers ten pinpointed precepts identified as Habits which underline the attentiveness reasonableness and responsibility required in a semiotic approach to a theology of inculturation The Habits are also akin to the imperatives inherent in the notion of catholicity that catholicity is not identified with uniformity but with reconciled diversity and also that catholicity demands different forms in different places times and cultural settings

Liturgy with a Difference Stephen Burns, Bryan Cones, 2019-05-30 Christian churches in recent decades have taken some steps in their practices of liturgy and worship toward acknowledging the graced dignity of human variety But who is still excluded What pernicious norms still govern below the surface and how might they be revealed How do texts gestures and space abet and enforce such norms How might Christian assemblies gather multiple expressions of human difference to propose through Christian liturgy patterns of graced interaction in the world around them Liturgy with a Difference gathers a broad range of international theologians and scholars to interrogate current practices of liturgy and worship in order to unmask ways in which dehumanizing majoritarianisms and presumed norms of gender culture ethnicity and body among others remain at work in congregations Together the chapters in this collection call for a liturgical practice that recognizes and rehearses the vivid richness of God's image found in the human community and glimpsed if only for a moment in liturgical celebration They point a way beyond mere inclusion toward a generous embrace of the many differences that make up the Christian community With contributions from Rachel Mann Teresa Berger Susannah Cornwall Miguel A DeLa Torre Edward Foley W

Couchman, 2025-10-10 What does it mean to worship More often than not we understand worship to be something that we perform for God If that's the case then worship is ultimately a human action that flows from human effort How would our understanding of worship change though if we took as our starting point that Jesus is a fully human and fully divine worshiper Does it then mean that God is worshipping In responding to these questions Liturgia Dei suggests that worship is not primarily something we do for God but something God is eternally performing Worship is the eternal glorification of God that extends from and returns to the eternal relations of Father Son and Mother Spirit The church joins in this worship to through and with Jesus Christ **The Church as the Family of God and the Care for Creation** Khisi,

Maximian, 2019-02-19 Of late there has grown in African Catholicism the concept of Church as the Family of God Familia Dei which has enhanced greater social cohesion among the members of the Church and strengthened interpersonal relationships among them This book is an endeavour to offer a path towards the solution of the problem of environmental crisis through the theological discipline of ecclesiology Using the Catholic Archdiocese of Lilongwe's understanding of Church as the Family of God the book concludes that the application of the concept of Church as family of God while bringing great social cohesion among the people failed to extend to human relationships with the natural world in fact It has broadened the human feeling of superiority over the natural environment The book provides an ecclesiological complementarity which promotes a universal fraternity among people and the natural world and recommends an ecclesiological concept of Church as New Creation Nova creatio This would serve as a call for human beings to make a new ecological conversion leading new lifestyles change in their models of nature worldviews and change in the models of production and consumption Catholicism Today

Life in the Trinity Philip Krill, James McCullough, 2022-11-30 Informed by Scripture and the church fathers and inspired by the ressourcement theology of Henri de Lubac Hans Urs von Balthasar and Pope Benedict XVI this book advances new insight and practical application of the recent retrieval of Trinitarian theology and its vision of human transformation known as deification Father Philip Krill contributes to a growing retrieval of Trinitarian Christianity and a synthesis of the Western and Eastern theological traditions A final section on theosis or deification rounds out this exploration of God's full intentions for the redemption of humanity

Being Salvation Brandon R. Peterson, 2017-06-15 Karl Rahner's theory of how Jesus saves has garnered criticism Rahner's portrayal of Jesus has been described by Hans Urs von Balthasar as merely notifying the world of God's salvific will Others have doubted whether Rahner thinks Jesus causes salvation at all Even Rahner's advocates style his Jesus as a kind of sign albeit an effective one the primal Sacrament But another major and yet underappreciated dimension to Rahner's christology is his identification of Jesus as Representative both our representative before God and God's before us As such a Representative Jesus is not a redemptive agent who accomplishes human salvation simply through an act and even less is he a mere exemplar or notification This Jesus does not only do our salvation rather he is the locus of salvation itself He not only opens heaven's gates but he creates heaven with his own resurrection *Being Salvation* uncovers this dimension within Rahner's theology relating it to other historical examples of representative soteriology e.g. Irenaeus's theory of recapitulation and to Rahner's more familiar sacramental soteriological categories It gives special attention to Rahner's intense attention to the church fathers early in his career including Rahner's untranslated theology dissertation *E latera Christi* From the Side of Christ

Daring to Share Sandra Beardsall, Mitzi J. Budde, William P. ecclesiology Multi denominational parishes are more than a convenient way to revitalize congregational ministry They present new opportunities and approaches for sharing the gospel Ecumenical convergence meets demographic realities to suggest a mission strategy that will transform local practice and perhaps the church itself By daring to share these churches challenge a fractured world *Engaging with the Hopes of Parishes* Brendan Reed,2018 Catholic institutions today are faced with the challenge of redefining themselves within a context of growing pluralisation and detraditionalisation Following the empirical work on Catholic School identity Identity in Dialogue this book attends to the institution of the parish Engaging with the Hopes of Parishes offers a theoretical framework for parish life in a new context It introduces a new diagnostic tool the Searching for Parish Engagement Scale and it proposes four models for parish life today the convinced parish the engaged parish the devoted parish and the consumerist parish Brendan Reed is a parish priest in the Archdiocese of Melbourne Australia He is adjunct lecturer at Catholic Theological College University of Divinity
