R. Gurung,David J. Voelker,2017-10-02 Take a big picture look at teaching and learning Building on existing pedagogical research this volume showcases the scholarship of teaching and learning SoTL across the disciplines and takes it in a new direction In each chapter interdisciplinary teams of authors address a single pedagogical question bringing each of their home disciplines specific literature and methodologies to the table The result is a fresh examination of evidence based practices for teaching and learning in higher education that is intentionally inclusive of faculty from different disciplines By taking a closer more systematic look at the pedagogies used within the disciplines and their impacts on student learning the authors herein move away from more generic teaching tips and generic classroom activities and toward values knowledge and manner of thinking within SoTL itself The projects discussed in each chapter

furthermore will provide models for further research via interdisciplinary collaboration This is the 151st volume of this Jossey Bass higher education series It offers a comprehensive range of ideas and techniques for improving college teaching based on the experience of seasoned instructors and the latest findings of educational and psychological researchers

Student-Focused Learning Darrel W. Staat, 2020-06-15 Learning methods for the twenty first century will include those which are student centered learning focused and digitally enhanced Teaching will become learning management the lecturer will become a learning guide and students will become learning inventors This book provides chapters describing a number of methods to be used in higher education in the twenty first century Some methods have been in existence for a period of time others are literally at the front edge of development Trying them out piloting them and experimenting with them for the benefit of the student is well worth the effort It is best to be as prepared as possible for future changes rather than waiting to see what is going to happen Those who try and are successful will be the leaders in learning management of the near future In the digital world being at the leading edge has definite advantages No matter which method is used it should focus on the student as learner with the faculty member as a learning guide To survive in the twenty first century students will need to become continuous learners developing with changes at an exponential velocity Educators need to keep this critical concept in mind

The Lightning War: Grounding Unit Parker LaVitte, 2024-04-23 Can the mind really attain power over matter That s what the United States Government believed during the days of the New Age era Project Stargate when the possibility of psychic powers in military application was tested Remote viewing telekinesis telepathy and other abilities stemming from a purported sixth sense were explored as means to attain an advantage over an enemy Needless to say the program was a flop the documents declassified and the possibility of psychic supersoldiers fell into history as a preposterous experiment we d one day laugh at Or did it When sixteen year old Dale Bergeron is forced to make a move to Tinville Indiana with his parents against his will it doesn t take long to notice strange things happen around him when he s fired up Even stranger his new friends Alina Blake and Kiki can all say the same from some point in their lives But when the strange cloaked men seen performing rituals in the woods capture them their rescuers become their recruiters Discovered by the ultra secretive United States Paranormal Combat Force Dale and his school friends turned battle buddies set out on the path to become psychic supersoldiers thrust into battle against America s shadowy Freemasons and the sinister plot intended by the elite wealthy secret society Amid intertwining lies battles and betrayals can Dale and the rest of Unit Terranova 7 make a difference as the evil astral being Baphomet threatens humanity with a cataclysmic planar fusion
