Jaeger, J. David Tàbara, Julia Jaeger, 2011-06-28 This book provides the reader with a state of the art view of research on sustainable development Its emphasis lies on the transformative dimension of this research sustainable development can only be realized through a far reaching transformation of the situation humankind finds itself in at the beginning of the third millennium The contributions are written by leading world experts in the conceptualisation and actual practice of sustainable development The book provides a timely overview of ideas and methods as well as a variety of original learning examples on the most innovative approaches on sustainability science Protecting the Global Civilian from Violence Timo Kivimäki, 2021-05-10 This book reveals why the UN is more successful than unilateral great powers in protecting civilians from violence and focuses on the discourse development and consequences of UN peacekeeping Analysing statistics of state fragility and fatalities of violence

it reveals that the UN has managed to save tens of thousands of lives with its peacekeeping a surprising statistic given the media consensus about the UN's powerlessness and inefficiency Using computer assisted discourse analysis of resolutions from the UN Security Council 1993-2019 the book offers data that describe the character and development of UN approach to the protection of civilians from violence It then links the data to the statistics of conflict fatalities and state fragility to reveal by means of qualitative and quantitative analysis when where how and why the UN has been successful at protecting civilians Two reasons for the UN's success are highlighted in the book as being statistically most significant First the organization offers local ownership to peaceful solutions by considering conflicting parties as the primary agents of protection Second the UN approach is much less power oriented than unilateral approaches by the great powers protection for the UN does not mean deterrence or destruction but rather support for local protectors of civilians However strong great power influence on such operations tends to weaken UN's ability to save lives This book will be of much interest to students of humanitarian intervention peacekeeping human rights and International Relations in general *Forensic DNA*

Steven Fish, 2011-02-09 *Are Muslims Distinctive* represents the first major scientific effort to assess how Muslims and non Muslims differ and do not differ in the

contemporary world Using rigorous methods and data drawn from around the globe M Steven Fish reveals that in some areas Muslims and non Muslims differ less than is commonly imagined Muslims are not inclined to favor the fusion of religious and political authority or especially prone to mass political violence Yet there are differences Gender inequality is more severe among Muslims Muslims are unusually averse to homosexuality and other controversial behaviors and democracy is rare in the Muslim world Other areas of divergence bear the marks of a Muslim advantage Homicide rates and class based inequities are less severe among Muslims than non Muslims Fish s findings have vital implications for human welfare interfaith understanding and international relations

The Business Model Innovation Process Yariv Taran, Harry Boer, Christian Nielsen, 2021-11-21 Business Model Innovation Process Preparation Organization and Management examines a range of critical questions that merit thoughtful interdisciplinary consideration such as Why do business models and their innovation in particular matter today How can the process of business model innovation be understood organized and managed adequately under increasingly volatile uncertain complex and ambiguous technological business and geo political conditions What should decision making and risk management look like under these conditions with managers whose rationality is bounded The book offers a detailed account of the relatively unknown process of business model innovation by looking into the intersection of strategic operations and innovation management organizational design decision making and performance management In doing so this book addresses fundamental issues and introduces new ideas and theoretical perspectives In envisioning and thinking about various potential scenarios of business model innovation and understanding how to organize for each of these under different conditions the book provides original arguments and suggestions for practitioners For that purpose the book also offers many compelling real life examples of business models and their innovation Combining theory and practice this book is an essential read for researchers and academics of business model innovation as well as strategic management digital transformation innovation management and organizational change It will also be of direct interest to practitioners and business leaders seeking new perspectives to increase their competitive advantage

Scaled for Success Philip Hayward, 2018-07-26 Emerging from the confluence of Greco Roman mythology and regional folklore the mermaid has been an enduring motif in Western culture since the medieval period It has also been disseminated more widely initially through Western trade and colonisation and more recently through the increasing globalisation of media products and outlets Scaled for Success offers the first detailed overview of the mermaids dispersal outside Europe Complementing previous studies of the interrelationship between the mermaid and Mami Wata spirit in West Africa this volume addresses the mermaids presence in a range of Middle Eastern Asian Australian Latin American and North American contexts Individual chapters identify the manner in which the mermaid has been variously syncretised and or resignified in contexts as diverse as Indian public statuary Thai cinema and Coney Islands annual Mermaid Parade Rather than lingering as a relic of a bygone age the mermaid emerges as a versatile dynamic and above all polyvalent figure Her prominence exemplifies the manner in

which contemporary media lore has extended the currency of established folkloric figures in new and often surprising ways Analysing aspects of religious symbolism visual art literature and contemporary popular culture this copiously illustrated volume profiles an intriguing and highly diverse phenomenon Philip Hayward is editor of the journal Shima and holds adjunct professor positions at the University of Technology Sydney and at Southern Cross University His previous volume Making a Splash Mermaids and Mermen in 20th and 21st Century Audiovisual Media was published by John Libbey Publishing Indiana University Press in 2017
