Online Activism in the Middle East Jon Nordenson, 2017-03-17 Does the internet facilitate social and political change or even democratization in the Middle East Despite existing research on this subject there is still no consensus on the importance of social media and online platforms or on how we are to understand their influence This book provides empirical analysis of the day to day use of online platforms by activists in Egypt and Kuwait The research evaluates the importance of online platforms for effecting change and establishes a specific framework for doing so Egypt and Kuwait were chosen because since the mid 2000s they have been the most prominent Arab countries in terms of online and offline activism In the context of Kuwait Jon Nordenson examines the oppositional youth groups who fought for a constitutional democratic monarchy in the emirate In Egypt focus surrounds the groups and organizations working against sexual violence and sexual harassment Online Activism in the Middle East shows how and why online platforms are used by activists and identifies the crucial features of successful online campaigns Egypt and Kuwait are revealed to be authoritarian contexts but where the challenges and possibilities faced by activists are quite different The comparative nature of this research therefore exposes the context specific usage of online platforms separating this from the more general features of online activism Nordenson demonstrates the power of online activism to create an essential counterpublic that can challenge an authoritarian state and enable excluded groups to fight in ways that are far more difficult to suppress than a demonstration
