Dominion over Wildlife? Stephen M. Vantassel, 2009-04-01 For centuries Christians believed that God granted humanity dominion over the animal kingdom meaning that we had a moral right to kill manage and eat animals including wildlife Recently however environmental and animal rights activists have assaulted this traditional perspective They argue that dominion as expressed in meat eating and hunting has resulted in species extinction and environmental degradation Christian Animal Rights CAR activists suggest that the church must reevaluate its traditional beliefs in light of the fact that God's original creation was free of human on animal violence God they argue did not want man's dominion to be expressed through trapping killing and eating of animals These violent activities only came about after the Fall as God condescended to our hardness of heart CAR activists point to Christ's sacrificial work of reconciliation as a model for modern Christian behavior as Christ sacrificed for us we should avoid eating meat and hunting as ways we can participate in Christ's non violent work of reconciling creation to himself In this book Stephen Vantassel investigates the biblical ethical and scientific arguments employed by the CAR movement concerning human wildlife relations In this regard the book engages in practical theology by addressing several important questions How should Christians treat our wildlife neighbors Has the Church been wrong in its understanding of human dominion Does God want Christians to avoid hunting trapping fishing and to adopt a vegetarian lifestyle This book provides answers to these questions by detailing a theology the author calls Shepherdism

Department of Printed Books, 1889 [A Thematic Access-Oriented Bibliography of Jesus's Resurrection](#) Michael J. Alter, 2019-12-31 The keystone of Christianity is Jesus's physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views theistic e.g Christian Jewish Muslim etc agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find

William Branchley Rye,1889 **Contextualization** David J. Hesselgrave,Edward Rommen,2000-09-01 Meanings Methods and Models Contextualization Meanings Methods and Models is a classic textbook that brings together the meanings proposals and tasks involved in contextualization The authors trace its historical development beginning with its roots in the Bible and early Church They examine how cultural linguistic and theological elements influence the way the Gospel is communicated across different contexts The book highlights how the Church has wrestled with expressing timeless truths in culturally relevant ways while maintaining biblical integrity Hesselgrave and Rommen engage with the ideas of key theologians and missiologists evaluating a range of contextualization models from traditional mission methods to more adaptive culture centered approaches They provide a balanced critique of these proposals identifying both strengths and limitations The authors conclude by offering their own definition and approach to contextualization one that is both faithful to Scripture and practically effective for global mission work today **On the Writing of New Testament Commentaries**
