Utopia David Ayers, Benedikt Hjärtarson, Tomi Huttunen, Harri Veivo, 2015-12-14 Utopian hope and dystopian despair are characteristic features of modernism and the avant garde Readings of the avant garde have frequently sought to identify utopian moments coded in its works and activities as optimistic signs of a possible future social life or as the attempt to preserve hope against the closure of an emergent dystopian present The fourth volume of the EAM series European Avant Garde and Modernism Studies casts light on the history theory and actuality of the utopian and dystopian strands which run through European modernism and the avant garde from the late 19th to the 21st century The book's varied and carefully selected contributions written by experts from around 20 countries seek to answer such questions as how have modernism and the avant garde responded to historical circumstance in mapping the form of possible futures for humanity how have avant garde and modernist works presented ideals of living as alternatives to the present how have avant gardists acted with or against the state to remodel human life or to resist the instrumental reduction of life by administration and

Subject-catalogue [ed. by F. Vinton]. Princeton univ, libr,1884 In the Grip of Minos Matthew Senior,1994 Following Trent a new mode of confession makes its appearance a baroque discourse in which the heart speaks to the heart Senior argues that Corneille similarly creates a new kind of hero who distinguishes himself as much by the confessional trial of self statement as by his military exploits In the work of Racine Senior notes Minos appears again tormenting the conscience of Phedre Logos of Phenomenology and Phenomenology of The Logos. Book Three Anna-Teresa Tymieniecka,2006-07-19 Situated at the crossroads of nature and culture physics and consciousness cosmos and life history intimately conjoined with time continues to puzzle the philosopher as well as the scientist Does brute nature unfold a history Does human history have a telos Does human existence have a purpose Phenomenology of life projects a new interrogative system for reexamining these questions We are invited to follow the logos of life as it spins in innumerable ways the interplay of natural factors human passions social forces science and experience through interruptions and kairic moments of accomplishment in the human creative imagination and intellectual reasoning There then run a cohesive thread of reality

God and the Knowledge of Reality Thomas Molnar,2021-09-28 Written simply yet comprehensively Molnar's analysis of the history of philosophy and false mysticism leads him to conclude that a return to a moderate realism will save the philosophical enterprise from a series of epistemological and societal absolutes that are embodied in contemporary rationalism and mysticism alike Issues that have been systematically excluded from discourse will have to be reintroduced into the discussion of person and providence Molnar divided the philosophical systems into two groups according to their vision of God and consequently of reality One group removes God from the human scope therefore rendering the world unreal unknowable and meaningless The second group holds that God is immanent in the human soul thereby emphasizing the human attainment of divine status and reducing the extra mental world to a condition of utter imperfection Either way

the result is a pseudo mysticism a denial of the creaturely status of human beings What is most needed Molnar claims is a theory of knowledge whose ideal is not fusion but distinction between God and Man subject and object the self and the society By thus raising the question of philosophy over against magic Molnar seeks to awaken the reader from neo dogmatic assumptions and restore speculative thought to its traditional place *American Ecclesiastical Review* Herman Joseph Heuser,1917
