historical reconstruction she introduces us to Adriaen Janse van Ilpendam and the long forgotten world he inhabited in Holland's North American colony. Her powerful narrative will make readers care for this quiet and studious man, an ordinary settler for whom the clash of empires brought tragedy. Like so many of his fellow countrymen, Janse left his Dutch homeland as a young adult to try his luck in New Netherland. After spending a few years on Manhattan Island, he moved on to the fur trading settlement today known as Albany. Merwick traces his journey to a new continent and re-creates the satisfying existence this respected burgher enjoyed with his wife in the bustling town. As a notary, Janse was in the author's words surrounded by stories those he listened to and recorded; the hundreds he archived in a chest or trunk. His familiar life was turned upside down by the British conquest of the colony. Merwick recounts the changes brought about by the new rulers and imagines the despair Janse must have felt when English, a language he had never learned, replaced his native tongue in official transactions. In any military adventure, truth is alleged to be the first casualty. Merwick offers a poignant reminder that the first casualties are in fact people. As much a musing on what history obscures as what it reveals, her book is a superior work by a master practitioner of her craft.

Red Book Alice Eichholz, 2004 provides updated county and town listings within the same overall state-by-state organization; information on records and holdings for every county in the United States as well as excellent maps from renowned mapmaker William Dollarhide. The availability of census records such as federal, state, and territorial census reports is covered in detail. Vital records are also discussed, including when and where they were kept and how.
