The highly publicized obscenity trial of Radclyffe Hall's *The Well of Loneliness* 1928 is generally recognized as the crystallizing moment in the construction of a visible modern English lesbian culture marking a great divide between innocence and deviance private and public New Woman and Modern Lesbian Yet despite unreserved agreement on the importance of this cultural moment previous studies often reductively distort our reading of the formation of early twentieth century lesbian identity either by neglecting to examine in detail the developments leading up to the ban or by framing events in too broad a context against other cultural phenomena Fashioning Sapphism locates the novelist Radclyffe Hall and other prominent lesbians including the pioneer in women's policing Mary Allen the artist Gluck and the writer Bryher within English modernity through the multiple sites of law sexology fashion and literary and visual representation thus tracing the emergence of a modern English lesbian subculture in the first two decades of the twentieth century Drawing on extensive new archival research the book interrogates anew a range of myths long accepted without question and still in circulation concerning to cite only a few the extent of homophobia in the 1920s the strategic deployment of sexology against sexual

minorities and the rigidity of certain cultural codes to denote lesbianism in public culture

Changing Politics of Education Michael Fabricant, Michelle Fine, 2015-11-17 The authors persuasively argue that the present cascade of reforms to public education is a consequence of a larger intention to shrink government. The startling result is that more of public education's assets and resources are moving to the private sector and to the prison industrial complex. Drawing on various forms of evidence, structural economic narrative and youth-generated participatory research, the authors reveal new structures and circuits of dispossession and privilege that amount to a clear failure of present policy. Policymaking is at war with the interests of the vast majority of citizens and especially with urban youth of color. In the final chapter, the authors explore democratic principles and offer examples essential to mobilizing in solidarity with educators, youth, communities, labor, and allied social movements, the kind of power necessary to contest the present direction of public education reform.
