sleeper who is so far forgotten you could draft him and start him in the last round would it be worth it My readers who picked up Darren Waller and Devin Singletary in the late rounds last year think so Or if all this Fantasy Football Almanac and Draft Guide did was keep you from using your draft day picks on season long busts This is more than a fantasy football magazine It s a fantasy football scouting agency We blend next gen sports analytics with good old fashion film study I literally watch every single preseason game in order to properly calibrate this guide s rankings throughout the offseason That s right The Fantasy Football Almanac and Draft Guide comes with FREE updates You don t have to pay 5 a month to access them If you buy the book we tell you how to access them Included Within 300 detailed player writeups with three year statistical progression included Instructions on how to interact with Sean throughout the offseason Over half of the league has a new head coach or offensive coordinator How does this impact fantasy potential Sean s shares insights based on film study and statistical analysis to project the impact of new offensive schemes oWe ve updated our algorithms to include play calling tendency of coaching staffs Other guides use historical data to project their totals The Fantasy Football Almanac and Draft Guide is the only fantasy football magazine that utilizes scouting for future rankings Simply put our draft strategy is primed to maximize the value of every draft pick Defense and Kicker analysis has been completed to identify competitive advantage at these positions which are commonly ignored We ve completed an easy to follow draft guide with useful tips for fantasy football rookies and fantasy football experts alike Overall player tiers definition which is more useful for draft strategy when playing in leagues with multiple team counts Expanded sleeper list that is rooted in scouting coaching analysis and analytics You won t find these players in other guides Risky players list which identifies popular players that carry risk are over drafted based on our analysis and or carry significant bust potential Fantasy Rankings for different league types Points per Reception PPR Standard non PPR and Rookies for Dynasty Leagues We track 2020 offseason movement coaching changes and draft selections
