Caroline Wylie, 2025-09-08 In Fair and Justice Oriented Assessment Margaret Heritage and Caroline Wylie propose that the key to improving learning opportunities for all students lies in increasing educators assessment literacy Only by examining various assessment practices through a lens of fairness and equity can practitioners best judge their use and value and then develop strategies for implementation that truly elevate student learning in alignment with school and district standards and in ways that are fair and just To build better assessment literacy Heritage and Wylie seek to strengthen professional knowledge of ambitious teaching and use of both formative and summative classroom assessment practices They clearly describe the knowledge and skills teachers need to better orient classroom assessment practices toward more positive learning experiences for all students Critically they urge educators to establish substantive learning goals attend to the ways of eliciting evidence of student learning towards those goals and reflect on the evidence to take action that intends to advance learning This book features real world examples of assessment practices across a range of contexts and content areas grade levels and student populations and shows how assessment literacy competencies can be achieved at scale with support from school and district leaders Fair and Justice Oriented Assessment provides a research based and yet practical perspective on classroom assessment and advocates for the use of equity oriented curricular and ambitious teaching Beyond Provincialism Mahmoud Suleiman, Tonya

Huber, 2022-08-01 International Education Inquiries is a book series dedicated to realizing the global vision of Education 2030. This vision involves ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all. The founding editors seek to provide a forum for the diverse voices of scholars and practitioners from across the globe, asking questions about transforming the vision of Education 2030 into a reality. Published chapters will reflect a variety of formats free of methodological restrictions involving disciplinary as well as interdisciplinary inquiries. We expect the series will be a leading forum for pioneers redefining the global discussion about the people, places, and perspectives shaping Education 2030 outcomes.

ENDORSEMENTS

The educational impact of the COVID-19 pandemic has created the most serious crisis in the history of public education. Addressing this crisis effectively will require efforts aligned with an inclusive and sustainable vision of development such as articulated by the UN Education 2030 and the Sustainable Development Goals. To build back better, educators need to guide their practice by knowledge that is local as well as global in ways that help their students understand those interdependencies. *Beyond Provincialism* is an invitation to such an exploration. In this edited volume, Professors Mahmoud Suleiman and Tonya Huber and their colleagues take the reader on a journey that illuminates the impact of hunger among college students in America, how the SDGs can help turnaround high poverty schools, the role of curriculum to promote cross-national collaboration, and how math and science instruction as well as study abroad can help students develop procedural and conceptual knowledge that makes visible the relevance of what they learn to the world around them, and the impact of the pandemic on teacher preparation in Palestine. The kaleidoscope of insights offered by this book will expand the global awareness and understanding of education as a global activity. A timely and useful resource for teachers and teacher educators that will contribute to advance a transformational education that helps us build back better from the devastation created by the pandemic.

Fernando M. Reimers, Harvard Graduate School of Education

Suleiman and Huber convene a dynamic group of scholars committed to transforming our schools. Using the latest theories and methodological approaches, *Beyond Provincialism* offers crucial frameworks to understand teaching and learning in a global perspective. This groundbreaking volume wholeheartedly embraces the Sustainable Development Goals (SDGs) and calls upon all of us to simultaneously dismantle systemic inequality and promote equity and social justice in pre-K-20 schools across nations and their institutions. It is simply a must-read book, especially for practitioners, educators, reformers, researchers, and policy makers who seek to internationalize education and take it beyond its cursory provincial goals.

Gilberto Q. Conchas, Wayne K. and Anita Woolfolk Hoy, Pennsylvania State University

At a time when proponents of diversity, equity, and inclusion are under attack, it is valuable to examine *Beyond Provincialism* to see how far we still need to go to reform schools and invest in teacher, educator, and leader preparation. Grounded in solid frameworks, this timely and informative book astutely provides insights from forceful practitioners, scholars, and researchers whose fascinating experiences and models have practical implications for promoting global multicultural competencies needed to combat racist mindsets and provincial

outlooks Based on Education 2030 vision the book provides a thoughtful blueprint for integrating international and global dimensions in teacher and educator preparation Ken Magdaleno Center for Leadership Equity and Research CLEAR
