The Complete Guide to Behavioural Change for Sport and Fitness Professionals Sarah Bolitho, Debbie Lawrence, Elaine McNish, 2013-07-01 Written by fitness and sport professionals for fitness and sport professionals, this is a key text for anybody working with clients who knows that the biggest roadblock to success is the client's ability to make a change in their day-to-day life. Many fitness professionals and sports coaches working with clients find difficulties in ensuring their clients stay motivated. Any professional prescribing a fitness programme to a client knows that the biggest roadblock to success is the client's ability to make a change in their day-to-day life. You can tell clients what they need to know, but you can't make lifestyle changes for them. You can, however, show understanding, put changes in perspective, offer motivation, and lay out the smaller steps that build towards a greater goal. **The Complete Guide to Behavioural Change for Sport and Fitness Professionals** covers both theoretical issues related to behaviour change and motivation and practical application in the fitness or sport setting, outlining all the different models of behaviour change and discussing clear motivation strategies. It is especially relevant for fitness professionals prescribing exercise to clients with health issues or referred clients who need support to become more active. But it is equally suited to helping recreational and amateur athletes who want to change their lifestyle or mental attitude in order to improve their performance. Written in clear, accessible language for the non-scientist, this is a reference guide for fitness instructors and personal trainers, sports coaches, and sports psychologists. Professionals from the health and fitness industry working at Levels 3 and 4 of the qualifications framework, undergraduates and postgraduates in sports studies and health and fitness, those working to promote activity in community settings. Anyone wishing to increase personal knowledge of behaviour change and motivation. **Introducing NLP** Joseph O'Connor, John Seymour, 2011-05-01 Some people appear more gifted than others. NLP, one of the fastest growing developments in applied psychology, describes in simple terms what they do differently and enables you to learn these patterns of excellence. **Introducing NLP** by Joseph O'Connor, a leading international NLP trainer and the author of **NLP**.
