Moving from Growth to Asset-Based Mindsets Linsay DeMartino, Lisa Fetman, 2025-07-30 Promoting a growth mindset in PreK 12 schools is a valuable educational trend based on the idea that students who believe they can grow and improve will succeed more easily However when students struggle academically there s often an undergirded assumption that they and sometimes their families are not trying hard enough or they just need to fit into a standardized mold This deficit thinking places blame on students perceived limitations and can lead to lower expectations or biases toward students who come from diversified backgrounds encompassing ability socioeconomic status race language gender or culture As an alternative approach this book promotes the universal adoption of Asset Based Practices ABPs ABPs encourage educators to see and honor the strengths in each student s identity ABPs shift our focus to the assets that students and families bring into the classroom viewing differences as resources rather than obstacles This means recognizing and building on students cultural linguistic and community based knowledge to make learning richer and more inclusive for everyone Implementing an asset based approach can transform our classrooms Research shows that students perform better and feel more motivated when they re recognized and valued for who they are Bringing students lived experiences into the curriculum can help them develop positive identities and a stronger sense of belonging which boosts their academic and social growth Instead of focusing on fixing students ABPs ask us to adapt our teaching to connect with students cultural backgrounds and experiences coupled with recognizing the wealth of knowledge that students bring from their families and communities Switching to an asset based approach helps us move away from simply encouraging perseverance or grit in students Instead it invites us to take responsibility for creating an environment where every student feels they belong and can succeed With ABPs we re able to create more inclusive and affirming classrooms for all students where their identities are seen as strengths not obstacles and where their cultural linguistic and community knowledge is a foundation for learning Innovative and creative methodologies and practices that aspiring and practicing educators can use right away are the primary focus of this book Because the editors and contributors are former or current PreK 12 practitioners and many are also educational scholars this book is written for a broad educational audience

Moving from Growth to Asset Based Mindsets is for both preservice and practicing teachers across PreK 12 grade levels school types and geographic regions looking to improve their practice To accomplish this the editors and contributors provide entry points for transforming the educational landscape in favor of liberatory asset based practices in PreK 12 schools Additionally this book is ideal for teacher and administrator preparation programs as well as PreK 12 professional development because it guides readers through theoretical and empirical discussions supported by hands on applications that enable real time application and concludes with interactive features like case studies extension activities and discussion prompts Perfect for courses such as Introduction to Educating For Equity And Social Justice Introduction to Cultivating Culturally Responsive Classrooms Foundations of Classroom Management Foundations of Methods And Curriculum Design Foundations Of Culturally And Linguistically Responsive Practice Introduction to Diversity Equity and Inclusion in Schools Principles of Professional Collaboration In Education Introduction to Supportive Classroom Communities Introduction To School Improvement Introduction to Teacher Leadership And School Improvement Introduction to Curriculum Instruction and Assessment Principles of Building Classroom Communities Principles of Teaching Diverse Learners Introduction to Multiculturalism in Education Principles of Youth Voices in Education Introduction to Professional Development Design
