Drawing/Thinking Marc Treib, 2012-12-06 Bringing together authors from the fields of architecture landscape architecture and art this book addresses the question Why draw by examining the various dynamic relationships between media process thought and environment *Drawing Investigations* Sarah Casey, Gerry Davies, 2020-06-11 Using close visual analysis of drawings artist interviews critical analysis and exegesis Drawing Investigations examines how artists use drawing as an investigative tool to reveal information that would otherwise remain unseen and unnoticed How does drawing add shape to ideas How does the artist accommodate to challenges and restraints of a particular environment To what extent is a drawing complementary and continuous with its subject and where is it disruptive and provocative Casey and Davies address these questions while focusing on artists working collaboratively and the use of drawing in challenging or unexpected environments Drawing Investigations evaluates the emergence of a way of thinking among an otherwise disconnected group of artists by exploring commonalities in the application of analytical drawing to the natural world urban environment social

forces and lived experience Examples represent a spectrum of research in international contexts an oceanographic Institute in California the archives of Amsterdam s Rijksmuseum the Antarctic Survey geothermal research in Japan and the Kurdish diaspora in Iraq Issues are situated in the contemporary theory and practice of drawing including relationships to historical precedents By exploring drawing s capacity to capture and describe experience to sharpen visual faculties and to bridge embodied and conceptual knowledge Drawing Investigations offers a fresh critical perspective on contemporary drawing practice

The Story of Drawing Susan Owens, 2024-09-10 Drawing is at the heart of human creativity The most democratic form of art making it requires nothing more than a plain surface and a stub of pencil a piece of chalk or an inky brush Our prehistoric ancestors drew with natural pigments on the walls of caves and every subsequent culture has practised drawing whether on papyrus parchment or paper Artists throughout history have used drawing as part of the creative process While painting and sculpture have been shaped heavily by money and influence drawing has always offered extraordinary creative latitude Here we see the artist at his or her most unguarded Susan Owens offers a glimpse over artists shoulders from Michelangelo Rembrandt and Hokusai to Van Gogh K the Kollwitz and Yayoi Kusama as they work think and innovate as they scrutinise the world around them or escape into their imaginations The Story of Drawing loops around the established history of art sometimes staying close at other times diving into exhilarating and altogether less familiar territory

Art, Research, Philosophy Clive Cazeaux, 2017-04-11 Art Research Philosophy explores the emergent field of artistic research art produced as a contribution to knowledge As a new subject it raises several questions What is art as research Don t the requirements of research amount to an imposition on the artistic process that dilutes the power of art How can something subjective become objective What is the relationship between art and writing Doesn t description always miss the particularity of the artwork This is the first book length study to show how ideas in philosophy can be applied to artistic research to answer its questions and to make proposals for its future Clive Cazeaux argues that artistic research is an exciting development in the historical debate between aesthetics and the theory of knowledge The book draws upon Kant phenomenology and critical theory to show how the immediacies of art and experience are enmeshed in the structures that create knowledge The power of art to act on these structures is illustrated through a series of studies that look closely at a number of contemporary artworks This book will be ideal for postgraduate students and scholars of the visual and creative arts aesthetics and art theory The Open Access version of this book available at www.taylorandfrancis.com has been made available under a Creative Commons Attribution NonCommercial No Derivatives 4.0 license <https://www.taylorfrancis.com/books/9781315764610>

Mida, 2022-08-25 Fashion is a subject that has long been marginalized in art history and in museums And yet one of the most well known artists in the twentieth century Marcel Duchamp created works that challenge the notion that fashion does not belong in the museum As well there is material evidence of his engagement with clothing as part of his oeuvre This book reveals that clothing and dressing are significant themes that recur in Duchamp's life and his work including his drawings his fashioning of his body his readymades and in his curatorial gestures In examining the items of clothing worn by Duchamp and the related traces of his wardrobe management Duchamp is unmasked as a dandy His waistcoat readymade series *Made to Measure* 1957 1961 is in fact a remarkable and deliberate effort to recalibrate the definition of the readymade to include clothing With this little studied readymade series Duchamp established a precedent for sartorial art as a valid form of artistic expression In considering the material traces of Duchamp's fashioning of his body and identity in his work and life this book makes a highly original contribution to the understanding of Duchamp's work as well as the significance of the clothed body

in the vanguard of Modernism Ultimately this book explains the relevance of fashion in the museum to modern audiences today
