The New York law, Thomas wrote, also violated the 14th amendment, which made second amendment rights applicable to the states.

Biden pointed to the longevity of New York gun laws and to past supreme court acceptance of the need to regulate gun ownership.

Accompanying commentary and analysis is included to help the reader fully understand the meaning of these documents. Numerous bibliographic sources provide additional resources for interested readers. Ideal for undergraduate and high school students, this collection of primary documents surrounding one of America's oldest controversial issues is a must have for library shelves. Contrary to popular impression, gun laws are as old as the country and reflect the intersection of citizens' personal gun habits and the country's early need to defend itself by citizen militias who were required to arm themselves. The nation's gun policies evolved as its needs and resources changed. Old style militias gave way to a modern professional American military and the settling of the American frontier ushered in modern gun laws. In the past century, political assassinations and gun-related mass violence spurred both new gun control efforts and a burgeoning modern gun rights movement. Students will be able to read and analyze primary documents surrounding these events including the Federalist Papers, early hunting laws, Supreme Court rulings, federal and state regulations, and recent political platform statements. Framing American Politics Karen Callaghan, Frauke Schnell, 2005-07-10. Most issues in American political life are complex and multifaceted, subject to multiple interpretations and points of view. How issues are framed matters enormously for the way they are understood and debated. For example, is affirmative action a just means toward a diverse society or is it reverse discrimination? Is the war on terror a defense of freedom and liberty or is it an attack on privacy and other cherished constitutional rights? Bringing together some of the leading researchers in American politics, *Framing American Politics* explores the roles that interest groups, political elites, and the media play in framing political issues for the mass public. The contributors address some of the most hotly debated foreign and domestic policies in contemporary American life, focusing on both the origins and process of framing and its effects on citizens. In so doing, these scholars clearly demonstrate how frames can both enhance and hinder political

Douglas Arnold,2006-04-02 Congress the Press and Political Accountability is the first large scale examination of how local media outlets cover members of the United States Congress Douglas Arnold asks do local newspapers provide the information citizens need in order to hold representatives accountable for their actions in office In contrast with previous studies which largely focused on the campaign period he tests various hypotheses about the causes and consequences of media coverage by exploring coverage during an entire congressional session Using three samples of local newspapers from across the country Arnold analyzes all coverage over a two year period every news story editorial opinion column letter and list First he investigates how twenty

five newspapers covered twenty five local representatives and next how competing newspapers in six cities covered their corresponding legislators Examination of an even larger sample sixty seven newspapers and 187 representatives shows why some newspapers cover legislators more thoroughly than do other papers Arnold then links the coverage data with a large public opinion survey to show that the volume of coverage affects citizens awareness of representatives and challengers The results show enormous variation in coverage Some newspapers cover legislators frequently thoroughly and accessibly Others some of them famous for their national coverage largely ignore local representatives The analysis also confirms that only those incumbents or challengers in the most competitive races and those who command huge sums of money receive extensive coverage
