Se ha reconocido que la demanda en la atención de urgencias se ha visto incrementada en todos los grupos etarios así como por la población geriátrica en la cual es más notorio este hecho. Las características específicas de la población envejecida incluyen cambios fisiológicos, una gran comorbilidad, polifarmacia y un riesgo elevado de desarrollar complicaciones entre otros. Asimismo, repercute de manera importante en la frecuencia de ingresos a los servicios de salud, las estancias prolongadas y en consecuencia la saturación de los servicios de urgencias. Lo anterior representa una gran rea de oportunidad que exige una planeación estratégica que incluya capacitación y entrenamiento organizado y sistematizado que ofrezca respuestas adecuadas considerando los aspectos médicos, físicos, mentales y sociales. The Law of Armed Conflict Gary D. Solis, 2016-04-18. Newly revised and expanded. The Law of Armed Conflict 2nd edition introduces law students and undergraduates to the law of war in an age of terrorism. What law of armed conflict? LOAC or its civilian counterpart international humanitarian law (IHL) applies in a particular armed conflict? Are terrorists legally bound by that law? What constitutes a war crime? What or who is a lawful target and how are targeting decisions made? What are rules of engagement and who formulates them? How can an autonomous weapon system be bound by the law of armed conflict? Why were the Guantanamo military commissions a failure? This book takes students through these LOAC/IHL questions and more employing real world examples and legal opinions from the US and abroad. From Nuremberg to 9/11, from courts martial to the US Supreme Court, from the nineteenth century to the twenty first, the law of war is explained, interpreted and applied.
