

NHA Patient Care Technician Final Exam with Correct Answers.

A PCT is teaching a patient about HIPAA regulations. Which of the following client statements indicates an understanding of the teaching? -

Correct answer "My provider is required to report if I receive a diagnosis of tuberculosis."

(HIPAA regulations require providers to report instances of communicable diseases, including tuberculosis, to prevent an outbreak in the community.)

A PCT is assisting a nurse to insert an indwelling urinary catheter for a patient. After setting up a sterile field, the technician drops the catheter on clean sheets. Which of the following actions should the technician take? -

Correct answer Obtain another sterile kit.

(The PCT should obtain another sterile kit and discard the catheter because it touched a non-sterile surface.)

A PCT is recording a patient's output and notes that the patient voided a small amount of dark yellow urine. The patient is flushed and reports dry mouth. The technician should identify that these findings indicate which of the following? - **Correct answer** Dehydration.

(With dehydration, urine output decreases, and the urine is concentrated, taking on a dark yellow color. The PCT should report this finding and the amount of urine output over the past 4 hr to the nurse.)

A PCT overhears the son of a patient who is terminally ill asking a nurse to keep the diagnosis secret from his father, and the nurse agrees. The technician should recognize that the nurse's action is a violation of which of the following parts of the Patients' Bill of Rights? - **Correct answer** The right to information about one's condition.

(The PCT should recognize that, according to the Patients' Bill of Rights, a patient's health care team is required to share information with patients about their diagnoses and treatment. By agreeing to keep this patient's

Fundamental Concepts and Skills for the Patient Care Technician - E-Book Kimberly Townsend Little, 2022-06-19

Master the skills you need to succeed as a patient care technician. *Fundamental Concepts and Skills for the Patient Care Technician* 2nd Edition provides a solid foundation in healthcare principles and in the procedures performed by PCTs and other health professionals. Coverage of skills includes patient hygiene, infection control, taking vital signs, moving and positioning of patients, blood and specimen collecting and testing, ECG placement and monitoring, care of the surgical patient, care of older adults, and more. Clear step-by-step instructions help you learn each procedure and may also be used as skills checklists. Written by nursing educator Kimberly Townsend Little, this text prepares students for success on Patient Care Technician or Nursing Assistant Certification exams. More than 100 step-by-step skills and procedures cover the information found on the Nursing Assistant and Patient Care Technician certification exams. Practice Scenarios present realistic case studies with questions to help you practice critical thinking and apply concepts to the practice setting. Delegation and Documentation boxes cover the information needed from the nurse before a procedure and what information should be recorded after the procedure. Illness and Injury Prevention boxes highlight important safety issues. Chapter review questions test your understanding of important content. Chapter summaries emphasize key points to remember. Chapter objectives and key terms outline the important concepts and essential terminology in each chapter. NEW! A chapter on medication administration is added to this edition. NEW! New content is included on NG and gastric tubes, oral suctioning, incentive spirometry, use of a bladder scanner, and inserting peripheral IVs. NEW! Updated guidelines include CPR and dietary guidelines.
