Multicultural Issues and Literacy Achievement Kathryn Au, 2013-09-13 This book is a sequel to the author's earlier volume entitled *Literacy Instruction in Multicultural Settings*. In addition to extensive updating of earlier material, this book extends the content coverage to include issues of power, attitudes, and systemic change through the application of discourse theory and critical theory. In doing so, however, the author has tried to maintain the brevity, stylistic clarity, and classroom focus of the earlier volume. Key features of this important new book include Teaching Flexibility. Although written with the classroom needs of pre-service teachers in mind, theory and research are treated in sufficient depth to make the book suitable for graduate courses and for teacher study groups. Issues Organization. Each chapter is organized around familiar issues that characterize schools and classrooms with diverse student populations and explores these issues through new lenses that most teachers have not previously encountered. Social Constructivist Perspective. Critical theory, discourse theory, and historical perspective are introduced in order to sensitize readers to the need to recognize negative, socially sustained patterns that hamper literacy achievement and replace them with positive patterns. To this end, each chapter asks students to maintain a running list of negative patterns along with alternative positive patterns.

Children in Immigrant Families Becoming Literate Catherine Compton-Lilly, Stephanie Shedrow, Dana Hagerman, Laura Hamman-Ortiz, Yao-Kai Chi, Jieun Kim, Sun Young Lee, Kristin Papoi, Erin Quast, Brooke Ward Taira, Bingjie Zheng, 2022-05-05 This original book offers a meaningful window into the lived experiences of children from immigrant families, providing a holistic, profound portrait of their literacy practices as situated within social, cultural, and political frames. Drawing on reports from five years of an ongoing longitudinal research project involving students from immigrant families across their elementary school years, each chapter explores a unique set of questions about the students' experiences and offers a rich data set of observations, interviews, and student-created artifacts. Authors apply different sociocultural, sociomaterial, and sociopolitical frameworks to better understand the dimensions of the children's experiences. The multitude of approaches applied demonstrates how viewing the same data through distinct lenses is a powerful way to uncover the differences and comparative uses of these theories. Through such varied lenses, it becomes apparent how the complexities of lived experiences inform and improve our understanding of teaching and learning and how our understanding of multifaceted literacy practices affects students' social worlds and identities. *Children in Immigrant Families Becoming Literate* is a much-needed resource for scholars, professors, researchers, and graduate students in language and literacy education, English education, and teacher education.
