Bickmann,2022-12-09 Establishing a factual basis on which to apply the law can be an extraordinarily challenging process and perhaps more so in international arbitration than in any other proceedings due to the very different notions of fact finding that prevail among jurisdictions This important book assesses for the first time the contours of an emerging transnational law of fact finding that promises to greatly enhance the efficiency and reliability of this crucial arbitral procedure In his analysis focusing on bases that reflect current but fluid transnational practice the author assembles a viable lex evidentiæ from an in depth examination and synthesis of the following bodies of source material published arbitration proceedings and awards the general framework of fact finding issues as provided for under the arbitration acts of England and Wales the United States Germany Brazil Spain Switzerland Austria and Italy as well as under the Model Law fact finding stipulations under UNCITRAL Arbitration Rules as well as under various institutional rules soft law such as the IBA Rules Prague Rules ALI UNIDROIT Principles of Transnational Civil Procedure best practices as captured by legal commentary and investment arbitration proceedings where many decisions and awards are nowadays publicly available In the course of the analysis a comprehensive description and analysis of what fact finding entails including both gathering of facts and taking of evidence is fully elaborated Given that it is an essential task of international arbitration proceedings to define the disagreements between the parties and seek to determine the truth the international arbitration community must be able to rely on a robust consistent and predictable albeit flexible and adaptive set of fact finding rules Against this background the present study not only provides a stocktaking of current practice but also makes a signal contribution to meeting the need for legal certainty and reliability in international arbitration

Dana MacGrath, Independent Arbitrator. MacGrath, *Arbitration: From an unreasoned fiat of a wise man who left both sides equally unhappy but resolved the disputes effectively*.
