Nikon Creative Lighting System Digital Field Guide Benjamin Edwards, 2012-02-15 Detailed coverage of the three high-end speedlights built exclusively for new Nikon SLRs. Nikon speedlights put creative control of flash at the photographer's command, and with Nikon's Creative Lighting System, flash control is practically intuitive and possibilities are seemingly endless. However, setting up, synchronizing the equipment, and determining lighting ratios can be a daunting task. This new edition of a bestseller puts your mind at ease in a flash. Award-winning photographer Benjamin Edwards begins with the basics and demystifies the complexities of using multiple speedlights, adjusting flash outputs, and setting up a wireless studio in an understandable, approachable way. Teaches you how to fill in shadows, reveal detail, and add a sense of motion or visual effects to your images, all with automatic ease and total wireless control. Includes coverage of other Creative Lighting System components such as Nikon's wireless commander and macro speedlights.
