elite with the necessary tools to distribute wealth more equally to take care of the population and thus to make the young Italian State more legitimate in the eyes of the emerging masses Law and social sciences were merged with the aim of increasing reforms including that of creating a State of Happiness for all citizens Throughout its 70 year existence Administrative Science was deprived of its contents and scientific independence and academically overshadowed by Administrative and Public law Finally although the liberal elites discarded the reformer project of Administrative Science even before Fascism turned everything upside down most of the original traits of this knowledge were absorbed into Fascist corporate and totalitarian structures **Readers' Guide to Periodical Literature** ,1910 The National Advocate ,1907
