Writing the Classroom Stephen E. Neaderhiser, 2022-11-21 Writing the Classroom explores how faculty compose and use pedagogical documents to establish classroom expectations and teaching practices as well as to articulate the professional identities they perform both inside and outside the classroom The contributors to this unique collection employ a wide range of methodological frameworks to demonstrate how pedagogical genres even ones as seemingly straightforward as the class syllabus have lives extending well beyond the classroom as they become part of how college teachers represent their own academic identities advocate for pedagogical values and negotiate the many external forces that influence the act of teaching Writing the Classroom shines a light on genres that are often treated as two dimensional with purely functional purposes arguing instead that genres like assignment prompts course proposals teaching statements and policy documents play a fundamental role in constructing the classroom and the broader pedagogical enterprise within academia Writing the Classroom calls on experienced teachers and faculty administrators to critically
