The Practitioner's Guide to Mirroring Hands Ernest L. Rossi,Richard Hill,2018-07-13

Richard Hill and Ernest L Rossi s The Practitioner s Guide to Mirroring Hands A Client Responsive Therapy that Facilitates Natural Problem Solving and Mind Body Healing describes in detail how Mirroring Hands is conducted and explores the framework of knowledge and understanding that surrounds and supports its therapeutic process Foreword by Jeffrey K Zeig Ph D In this instructive and illuminating manual Hill and Rossi show you how Mirroring Hands enables clients to unlock their problem solving and mind body healing capacities to arrive at a resolution in a way that many other therapies might not The authors offer expert guidance as to its client responsive applications and differentiate seven variations of the technique in order to give the practitioner confidence and comfort in their ability to work within and around the possibilities presented while in session Furthermore Hill and Rossi punctuate their description of how Mirroring Hands is conducted with a range of illustrative casebook examples and stage by stage snapshots of the therapy in action providing scripted language prompts and images of a client s hand movement that demonstrate the processes behind the technique as it takes the client from disruption into the therapeutic and from there to integration resolution and a state of well being This book begins by tracing the emergence of the Mirroring Hands approach from its origins in Rossi s studies and experiences with Milton H Erickson and by presenting a transcription of an insightful discussion between Rossi and Hill as they challenge some of the established ways in which we approach psychotherapy health and well being Building upon this exchange of ideas the authors define and demystify the nature of complex non linear systems and skillfully unpack the three key elements of induction to therapeutic consciousness focused attention curiosity and nascent confidence in a section dedicated to preparing the client for therapy Hill and Rossi supply guidance for the therapist through explanation of therapeutic dialogue s non directive language principles and through exploration of the four stage cycle that facilitates the client s capacity to access their natural problem solving and mind body healing The advocate Mirroring Hands as not only a therapeutic technique but also for all practitioners engaged in solution focused therapy Through its enquiry into the vital elements of client cue observation symptom scaling and rapport building inherent in the therapist client relationship this book shares great wisdom and insight that will help the practitioner become more attuned to their clients inner worlds and communication patterns Hill and Rossi draw on a wealth of up to date neuroscientific research and academic theory to help bridge the gap between therapy s

intended outcomes and its measured neurological effects and towards the book's close also open the door to the study of quantum field theory to inspire the reader's curiosity in this fascinating topic. An ideal progression for those engaged in mindfulness and meditation, this book is the first book on the subject specially written for all mental health practitioners and is suitable for students of counseling, psychotherapy, psychology and hypnotherapy as well as anyone in professional practice.

The Complete Guide to Understanding and Using NLP Barbara Gibson, 2011. When it first developed in the 1970s by Richard Bandler and John Grinder, Neuro Linguistic Programming or NLP was considered a great advancement in psychotherapy and was widely studied as a means by which to subjectively study language communication and personal change. Today it is a highly successful means by which individuals such as yourself can not only get better in touch with yourself and how you interact with the world through language and other forms of communication but to better understand those around you and make enhanced decisions, provide advice and boost your self-image through understanding. This book was written to assist every individual who ever wanted to become more in tune with their minds and their interactions with peers, family and friends. You will learn what NLP is and when it was first developed along with the basic studies originally published in the early 1970s. You will learn how to start reading through and understanding maps and filters, the basics of learning, unlearning and relearning and how communication and language are the fundamental basis for essentially every action you take in life. You will learn how to control pacing and leading in communication, what perception involves and how to understand the various representational systems described by NLP. You will learn how to recognize predicates of conversation and eye accessing cues as well as how to recognize and work with various physiological states and emotional freedom. You will learn the basics of elicitation and anchors including resource anchoring, collapsing anchoring and future pacing. Top psychologists and therapists have been interviewed for this guide with dozens providing information on which aspects of NLP are most effective for each individual. Using their advice as a map, you will learn how to use loops and systems and understand the different levels of learning. Everything from how language sets limits on your experience to how meta-model patterns control your life will be discussed in detail to help you take control of your life through understanding of Neuro Linguistic Programming.
